Green Team Documentation

Introduction

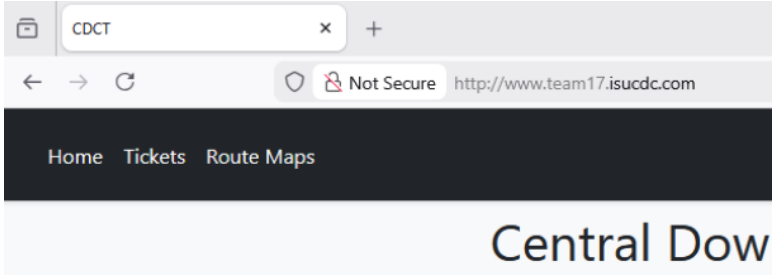
Welcome to the Green Team documentation provided by UNI Women Rugby (Team 17). This guide goes over the services we provide with comprehensive instructions.

Website

How to View our Website

1. Open a web browser

2. Navigate to our website: http://www.team17.isucdc.com:80

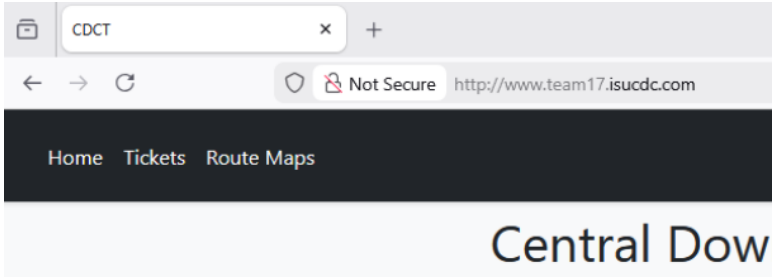


3. Use it in one of the other ways in this section

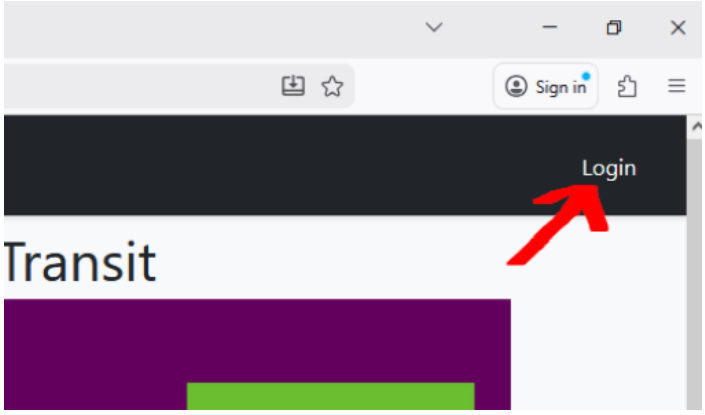
How to Sign Up for An Account

1. Open a web browser

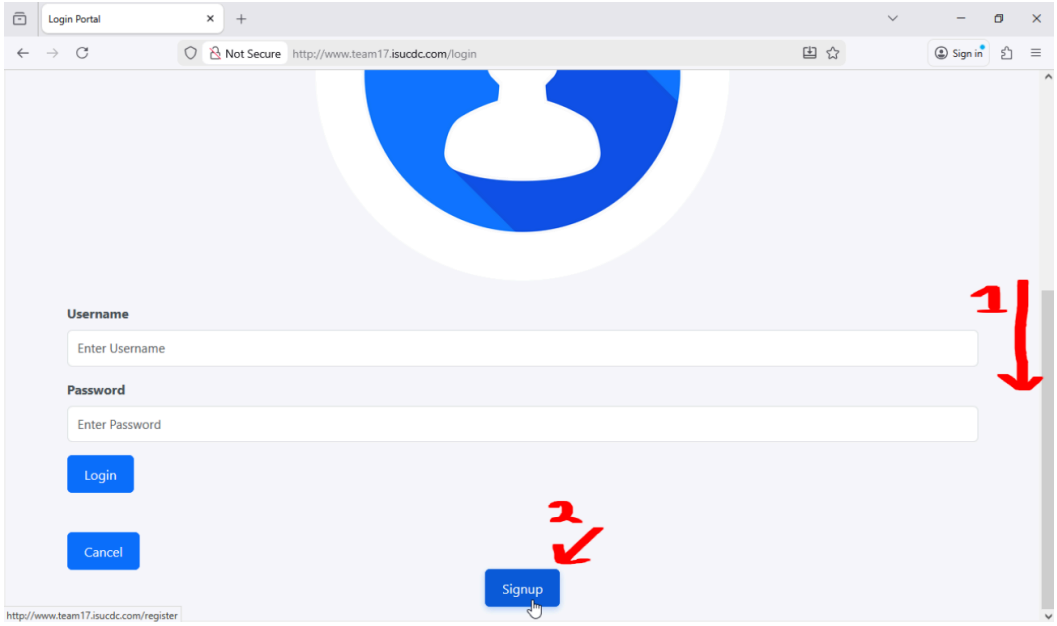
2. Navigate to our website: http://www.team17.isucdc.com:80



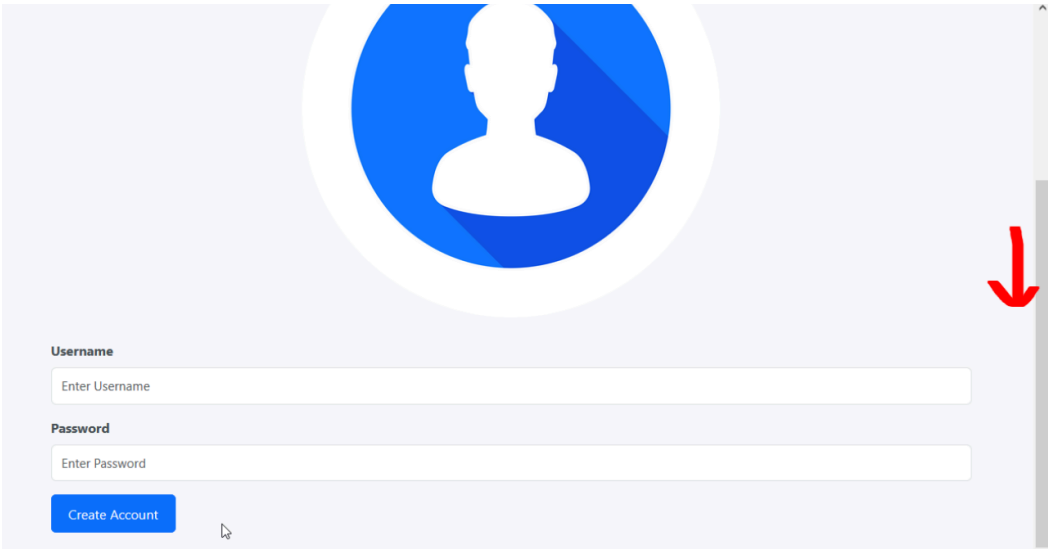
3. Click the ‘Login’ button at the upper right of website



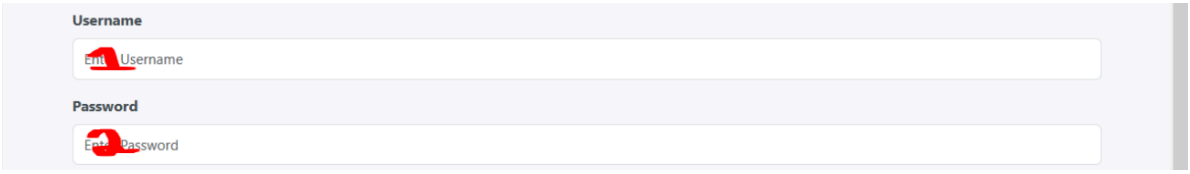
4. Scroll down and click the ‘Sign Up’ button at the bottom of the page



5. Scroll down again until you see the ‘Create Account’ button



6. Fill in a username and password



7. Click the ‘Create Account’ button

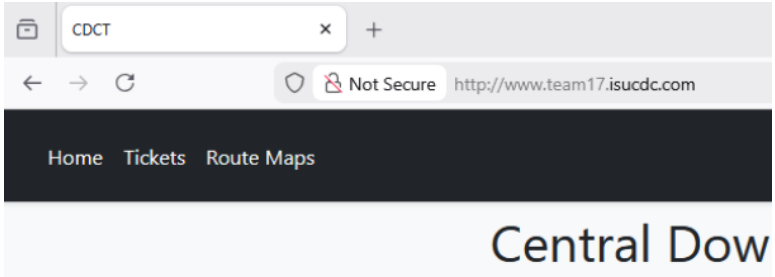
8. Click ‘Ok’ on the confirmation box that pops up

9. If brought from another section, continue with next step:
   How to Buy and Use a Ticket | How to Logout, Change Password, Update or View Payment Information |

How to Log In to Your Account

1. Open a web browser

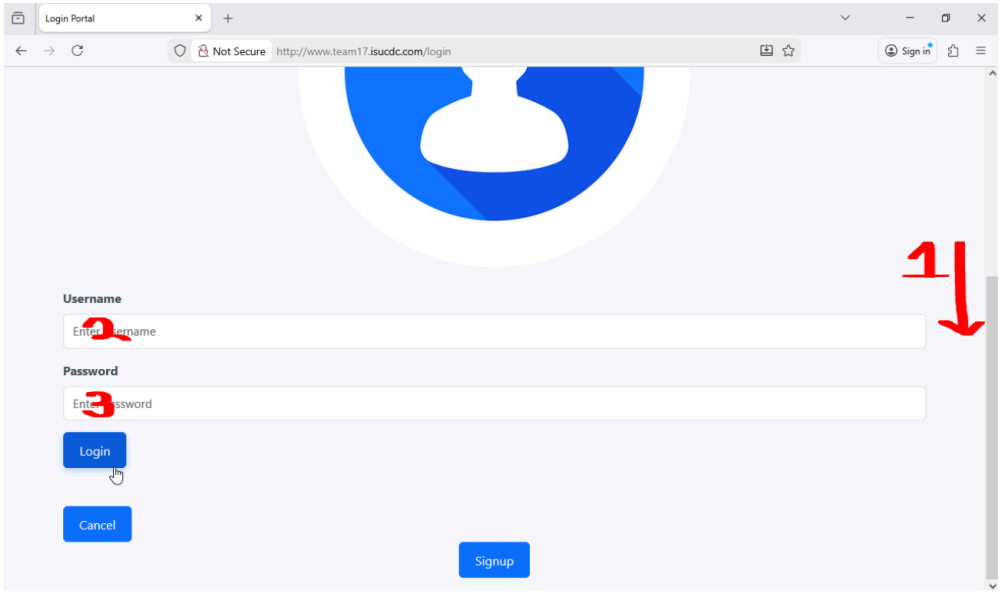
2. Navigate to our website: http://www.team17.isucdc.com:80



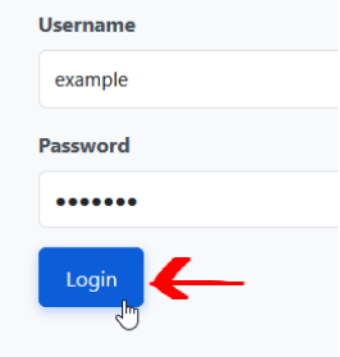
3. If you do not already have an account, follow the How to Sign Up instructions instead of the next instructions

4. Click the ‘Login’ button at the upper right of website

10. 
5. Scroll down and enter your username and password



6. Click the ‘Login‘ button

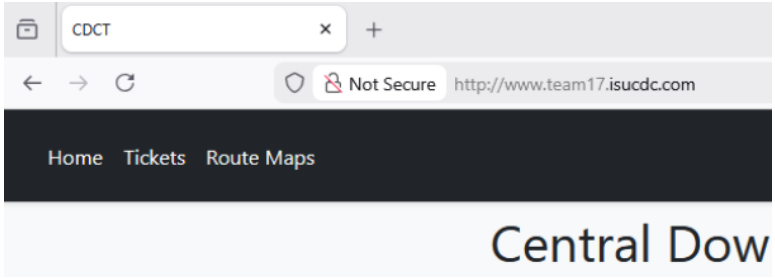


7. If brought from another section, continue with next step:
[How to Buy and Use a Ticket](#) | [How to Logout, Change Password, Update or View Payment Information](#) |

How to Buy and Use a Ticket

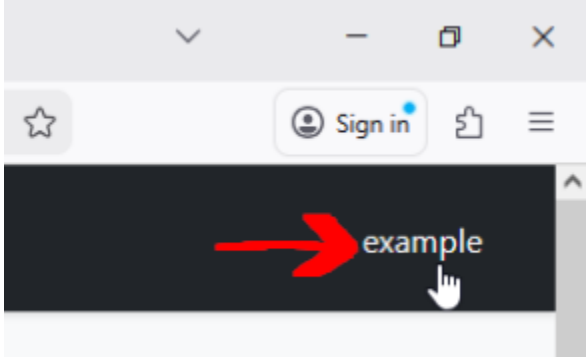
1. Open a web browser

2. Navigate to our website: http://www.team17.isucdc.com:80

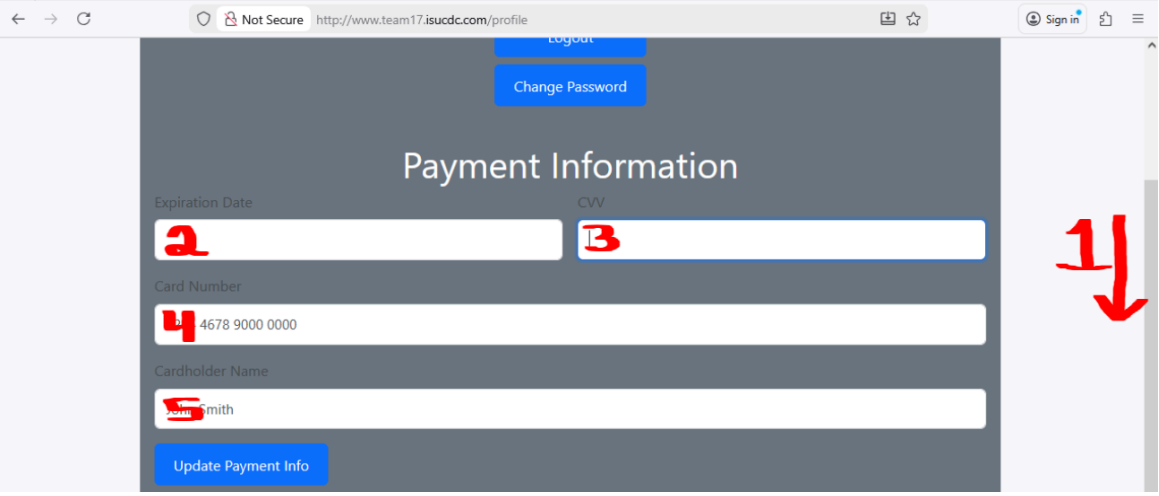


3. If you are not already, sign up (How to Sign Up) or log in to your account (How to Log In)

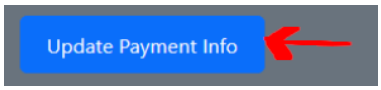
4. Click on your name in the upper right corner



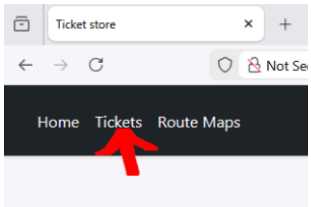
5. Scroll down and fill in your payment information in the boxes



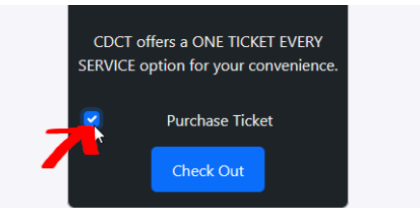
6. Click ‘Update Payment Information’



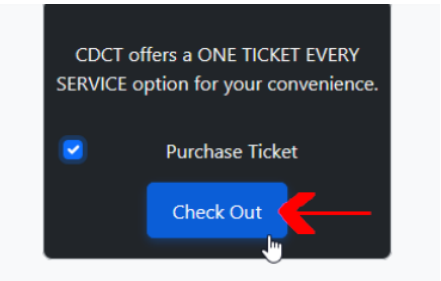
7. Click on the tickets button at the top left menu



8. Checkmark the box to the left of ‘Purchase Ticket’

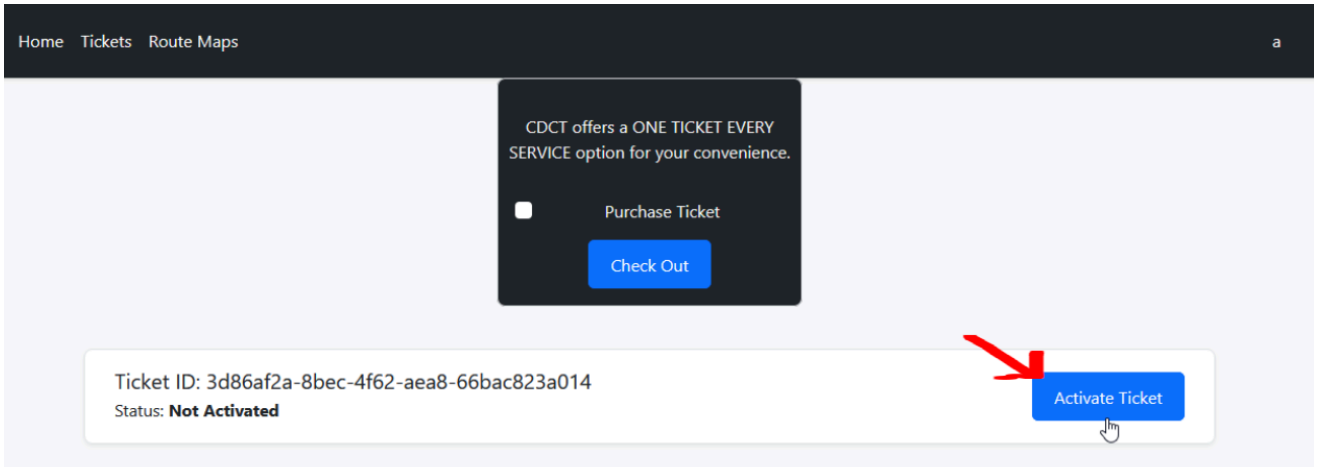


9. Click the ‘Check Out’ button

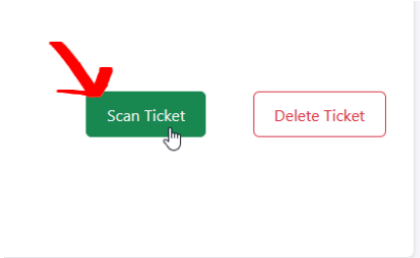


10. Click ‘Ok’ on the confirmation box

11. Click ‘Activate’ to use the ticket



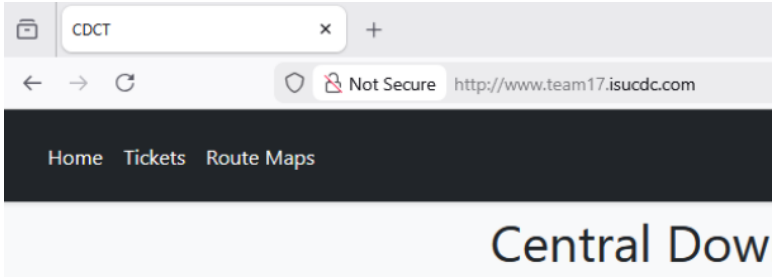
12. Click the ‘Scan Ticket’ button



How to Logout, Change Password, Update or View Payment Information

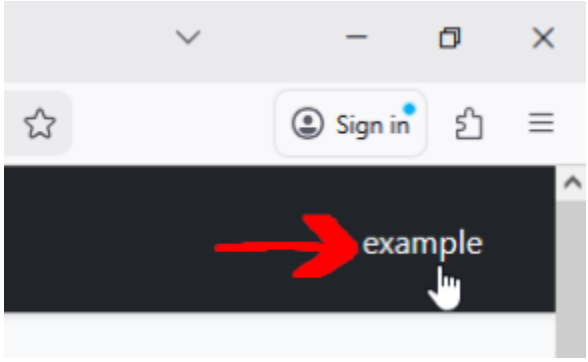
1. Open a web browser

2. Navigate to our website: http://www.team17.isucdc.com:80



3. If you are not already, sign up (How to Sign Up) or log in to your account (How to Log In)

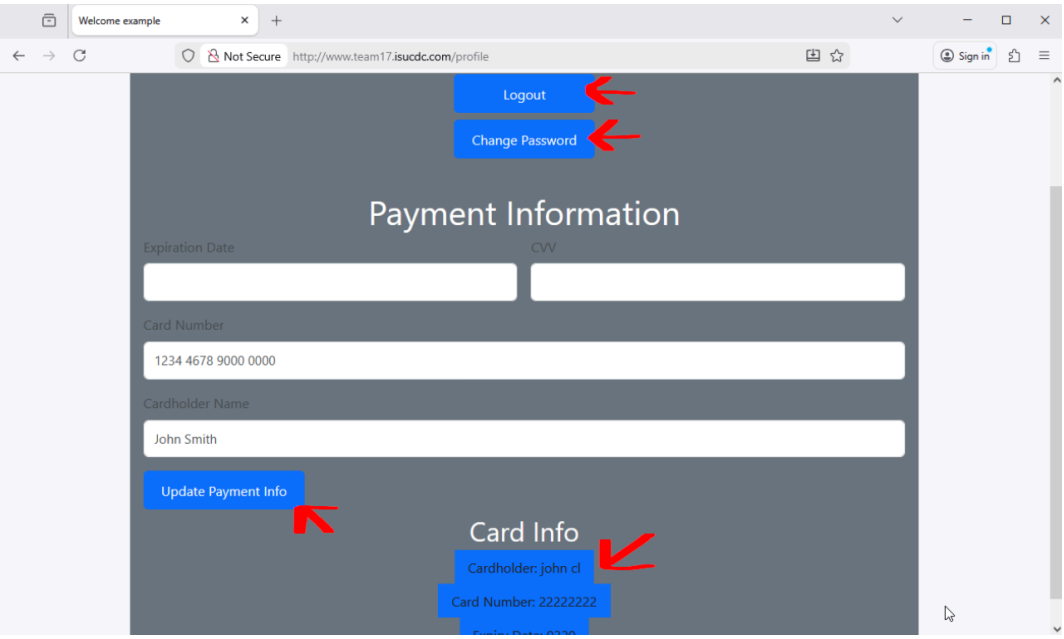
13. Click on your name in the upper right corner



14.
To log out, just hit the 'Logout' button
To change password:
- Click on 'Change Password'
- Scroll down
- Enter in the new password in 2 boxes
- Click 'Change Password'

To update payment info, enter in your new payment information in the 5 white boxes and click 'Update Payment Info'

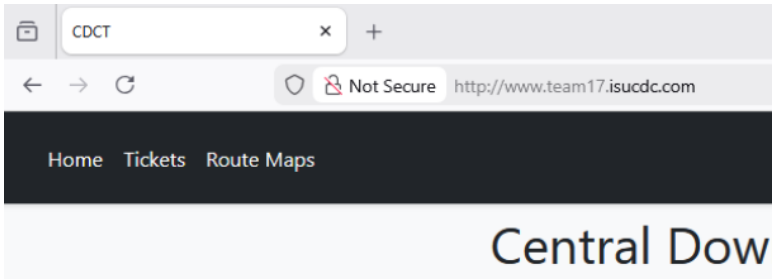
To see all your currently stored card information, scroll down a bit and look at the information under ‘Card Info’



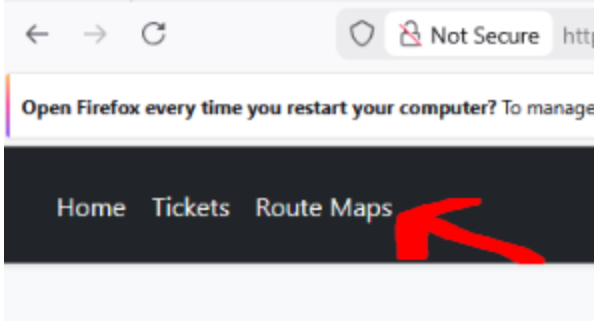
How to Check Route Maps for Trains/Buses

1. Open a web browser

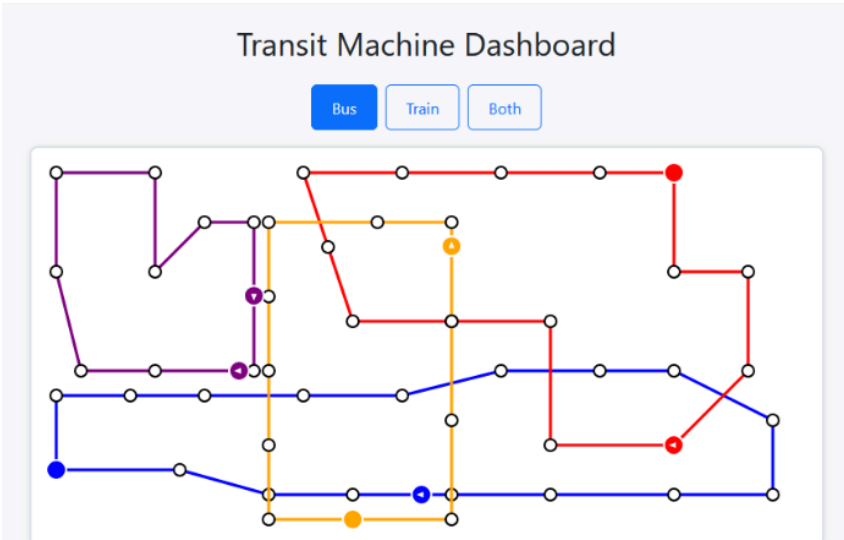
2. Navigate to our website: http://www.team17.isucdc.com:80



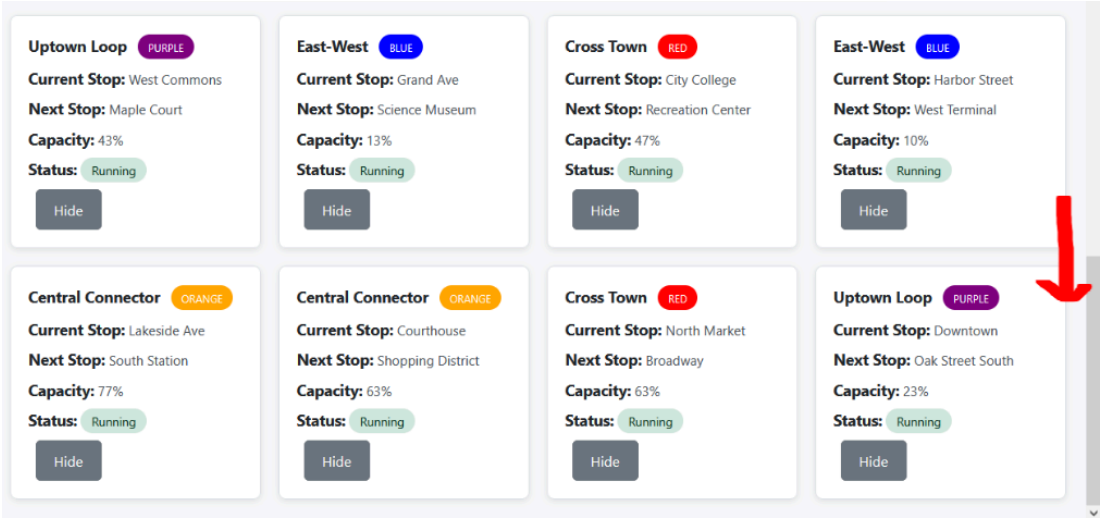
3. Click on the ‘Route Maps’ button



4. The Transit Machine Dashboard has buttons to select what types of transit you want to see



5. If you scroll down, you can select what specific transit routes to hide and see the capacity of the vehicle on that route



Admin Website

How to Login

1. Open a web browser

2. Navigate to the admin website: admin.team17.isucdc.com:80

3. Enter your username and password in the box in the middle

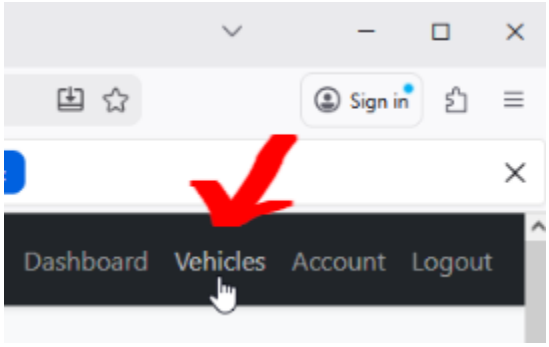
4. Click the 'Login' button

5. If brought from another section, continue with next step
   [Stopping or Changing Capacity of Vehicle](#) | [Changing Password](#)

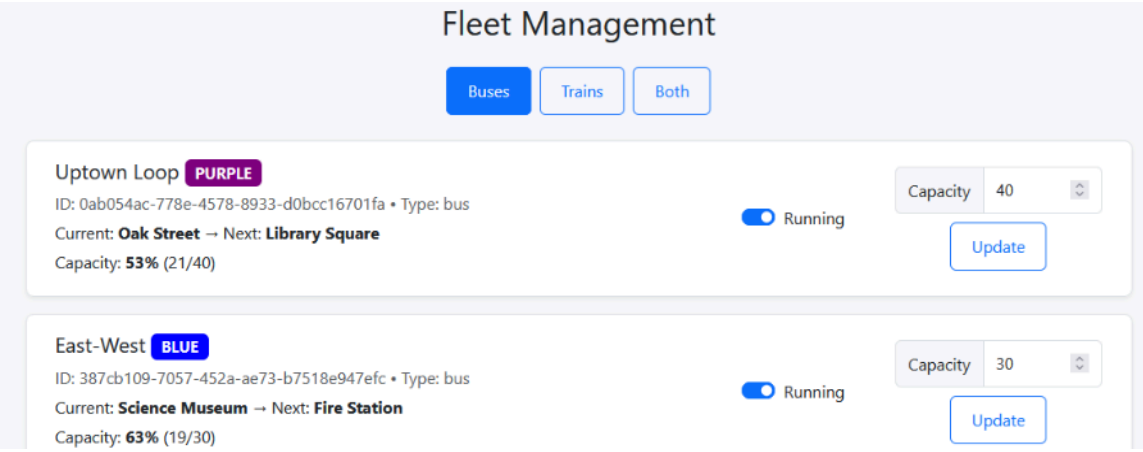
How to Stop or Change Capacity of Vehicle in Route

1. Navigate to website and login ([How to Login](#))

2. Click the 'Vehicles' button



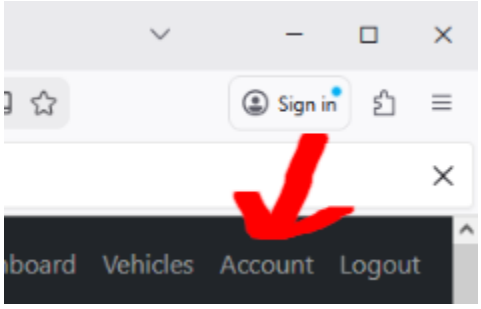
3.
    - Choose what type of vehicles you want manage by using the vehicle buttons below ‘Fleet Management’
    - Change the ‘Running’ switch to turn on and off a vehicle or change the capacity with the input above ‘Update’. Afterwards, hit ‘Update’ to apply any changes to the vehicle



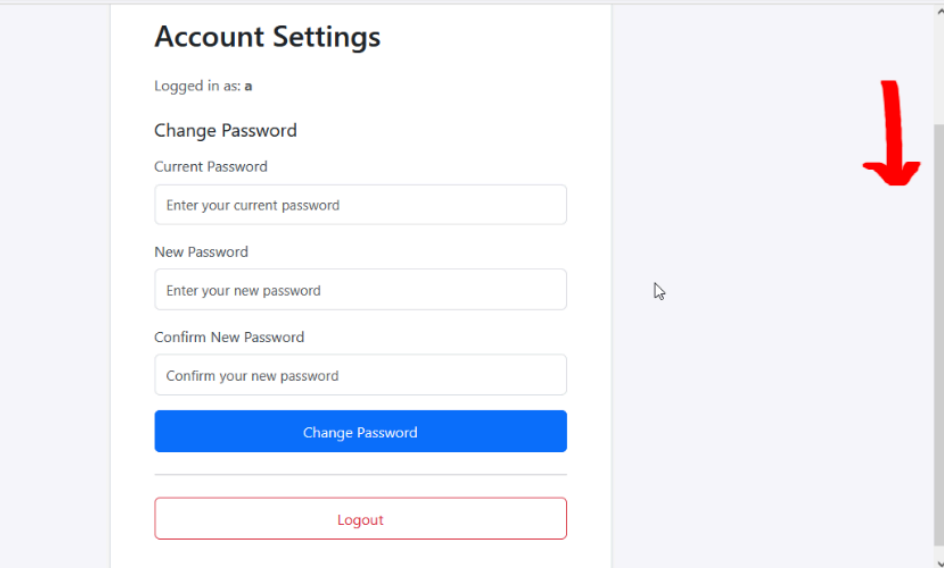
How to Change Password or Logout

1. Navigate to website and login ([How to Login](#))

2. Click ‘Account’ button



3. Scroll down to see the full menu



4.

To change your password:

- Enter in your current password and your new password. After that, click ‘Change Password’

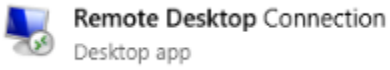
To logout:

- Click the ‘Logout’ button

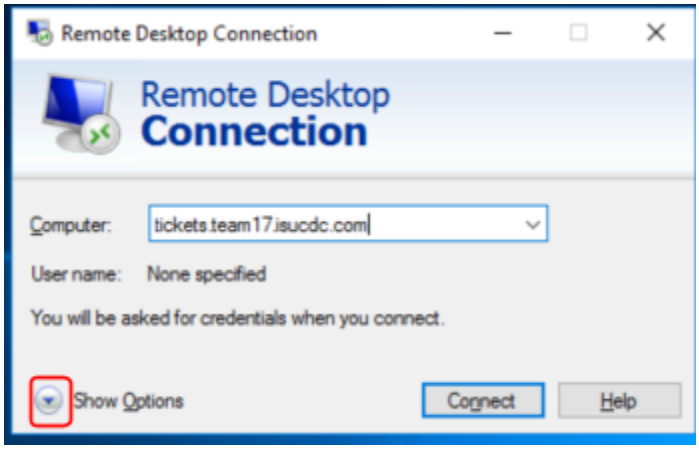
Remote Desktop

Accessing Remote Desktop on Windows

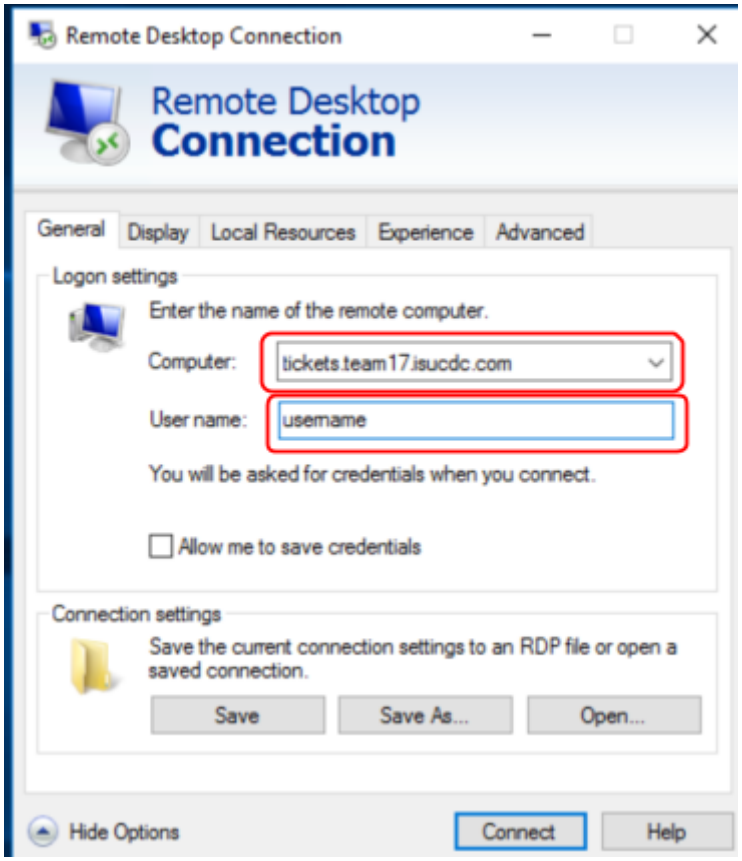
1. Use Windows Search Bar to search for and open the ‘Remote Desktop Connection App’



2. Enter the address of the computer you wish to connect to and then click the ‘Show Options’ arrow to make connecting and saving connections to connect faster in the future



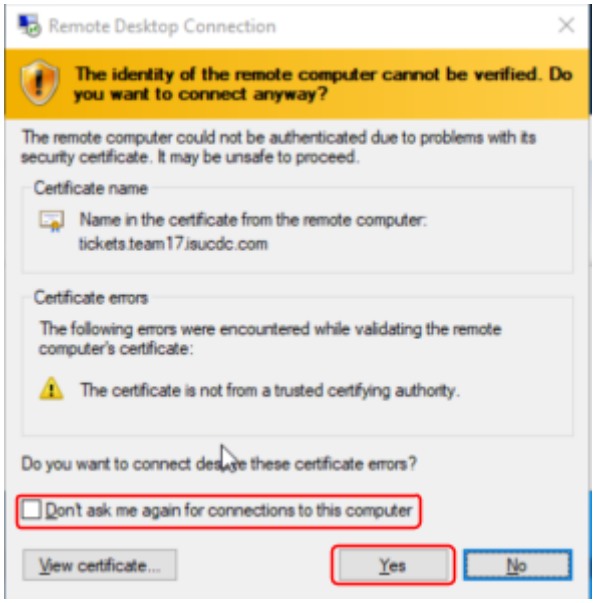
3. In the expanded Remote Desktop Connection window, enter the full computer name of the computer you are connecting to if you didn't fill it in previously, and the username you were provided



Note: To save this connection for later, select 'Save As…' and save it to a convenient location

4. Click the Connect button and then enter your password in the new window

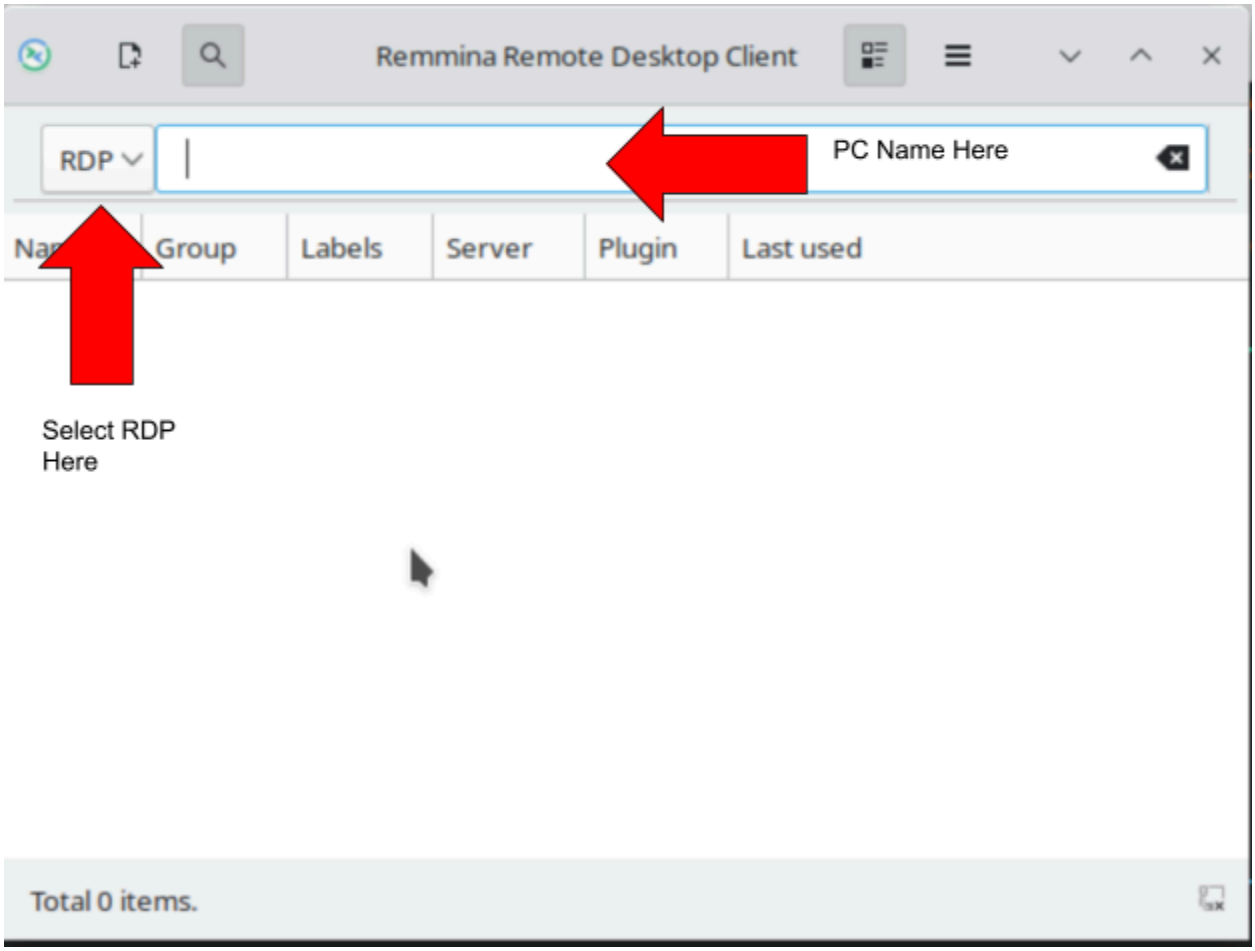
5. When you first connect, there will be an Untrusted Certificate Error. Just check the ‘Don’t ask me again for connections to this computer” checkbox and then click the ‘Yes’ button



Accessing Remote Desktop using Remmina on Linux

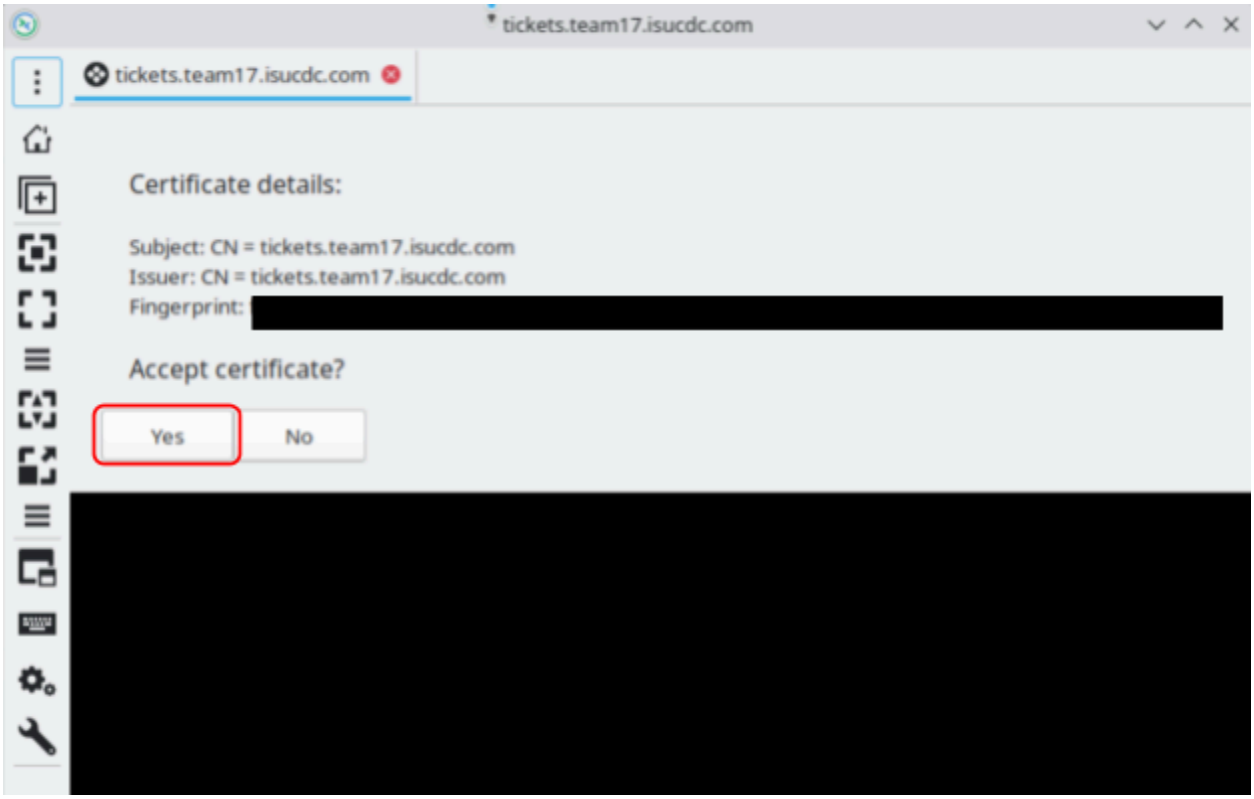
Note: If you are a Linux user, install Remmina from your distribution's package repository. Remmina Documentation and Installation Instructions are here: https://remmina.org/

1. Open Remmina Remote Desktop Client and select RDP in the Protocol selection dropdown



2. Enter the full computer name in the address bar and then hit Enter

3. When you first connect, there will be a Certificate Error message. Just click the ‘Yes’ button to accept the certificate



4. Enter the Username and Password for the account you want to connect with. In the Domain field, enter **team17.isucdc.com** then click the ‘Ok’ button

Secure Shell (WWW, Management)

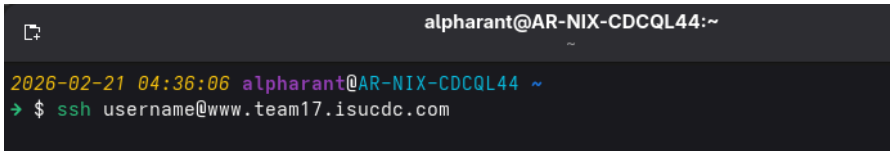
* Note: There are many Terminal applications available. These instructions work for all of them because they all use OpenSSH.

* Special Windows Users Note: The newer builds of Windows 10 and 11 include SSH client software by default. If you are on an older Windows build, you may need to install an SSH Client. By default, the OpenSSH client will be located in the directory **C:\Windows\System32\OpenSSH**. You can also check that it is installed in Windows Settings > Apps > Optional features, then search for 'OpenSSH' in your installed features.
More information can be found here:
https://learn.microsoft.com/en-us/windows/terminal/tutorials/ssh

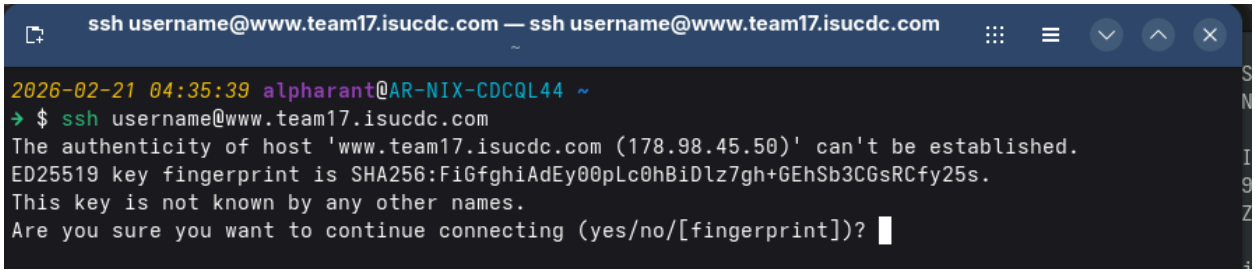
1. Open your preferred terminal.
   *Special Note: 3rd party terminal programs like Terratem and PuTTY will not be covered in this guide

2. In your terminal window, type the following command (replacing the red section with your username and the blue with the host name of the computer you want to connect to): ssh username@hostname

   Example: To connect to the Web server, you enter the following:
   ssh username@www.team17.isucdc.com



3. If this is your first time connecting, you will get an error message stating "The authenticity of this host cannot be established." Just type 'yes' and hit the enter button to continue connecting



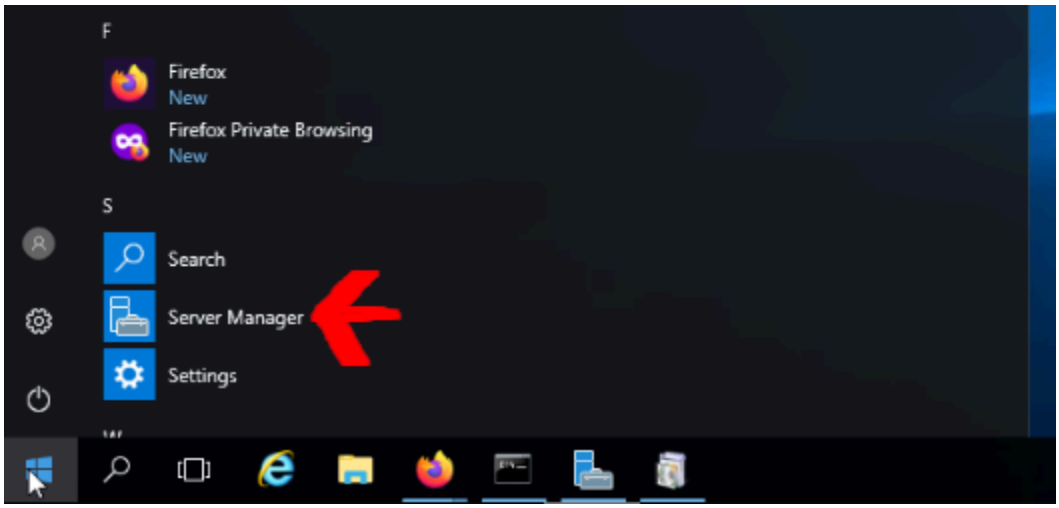
4. Enter the user’s password when prompted and then hit Enter

Active Directory

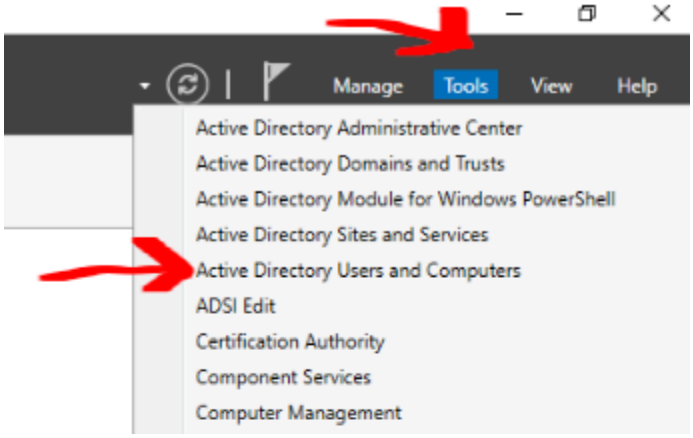
Add New Users to Active Directory

1. Remote Desktop into the Active Directory Server

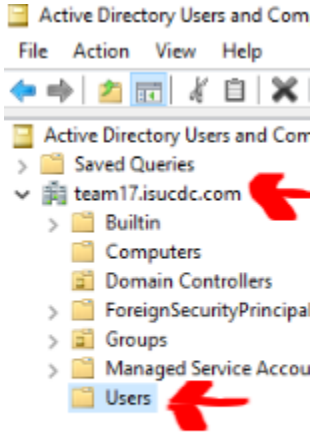
2. Open the Start Menu and click the ‘Server Manager’ application



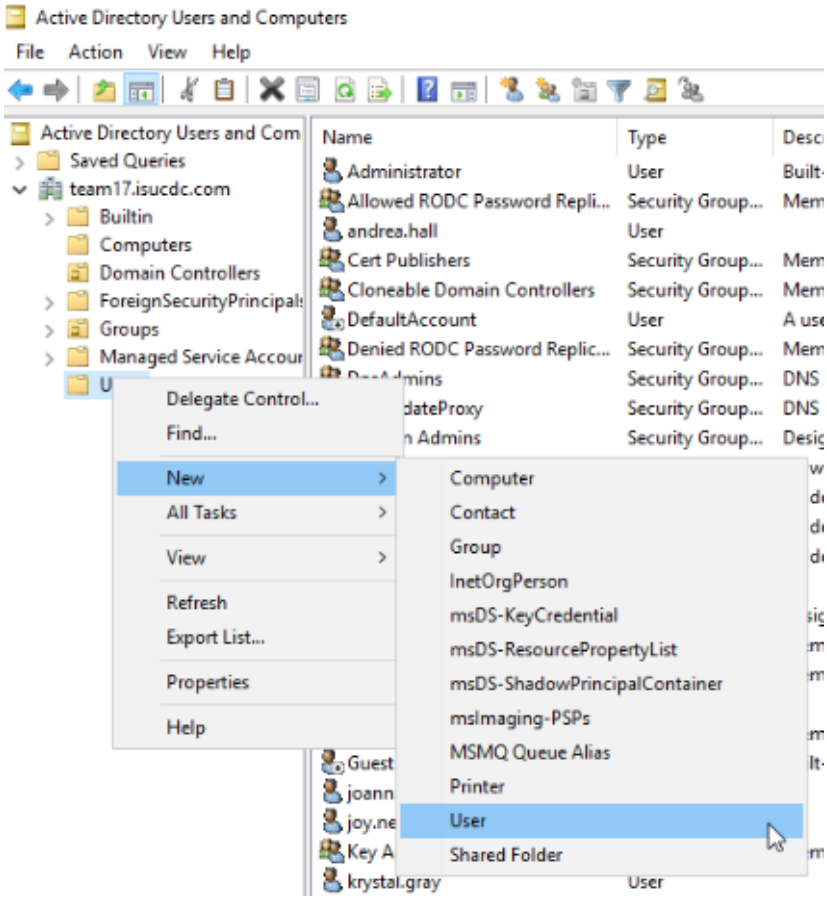
3. Click on ‘Tools’ in the upper right-hand corner. After that, in the submenu, click ‘Active Directory Users and Computers’



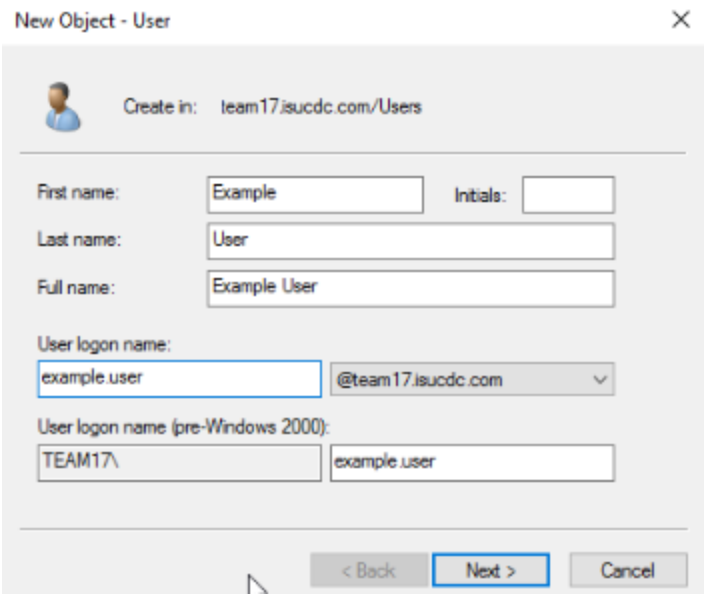
4. On the right, collapse ‘team17.isucdc.com’, and then ‘Users’



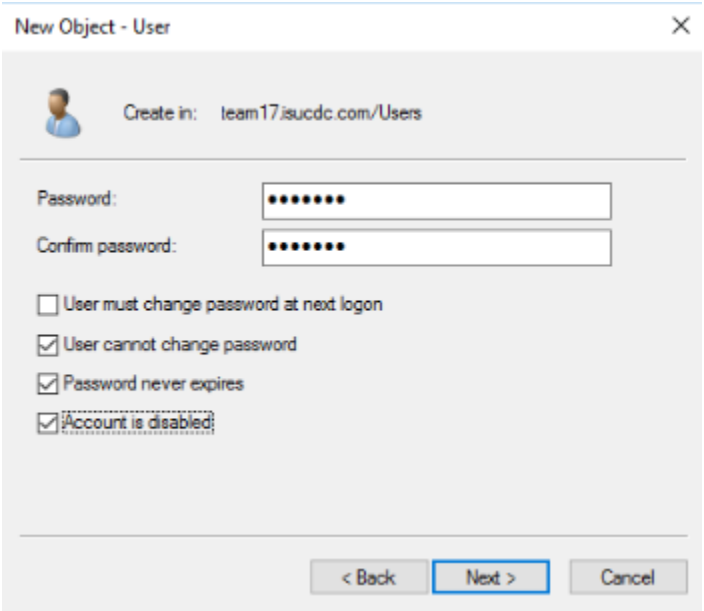
5. Right-click on the Organizational Unit (OU) that your new user will be at on the side panel. After that, hover over/click ‘New’ and click ‘User’



6. Put in the new user’s first name, last name, and username. After that, click on ‘Next >’

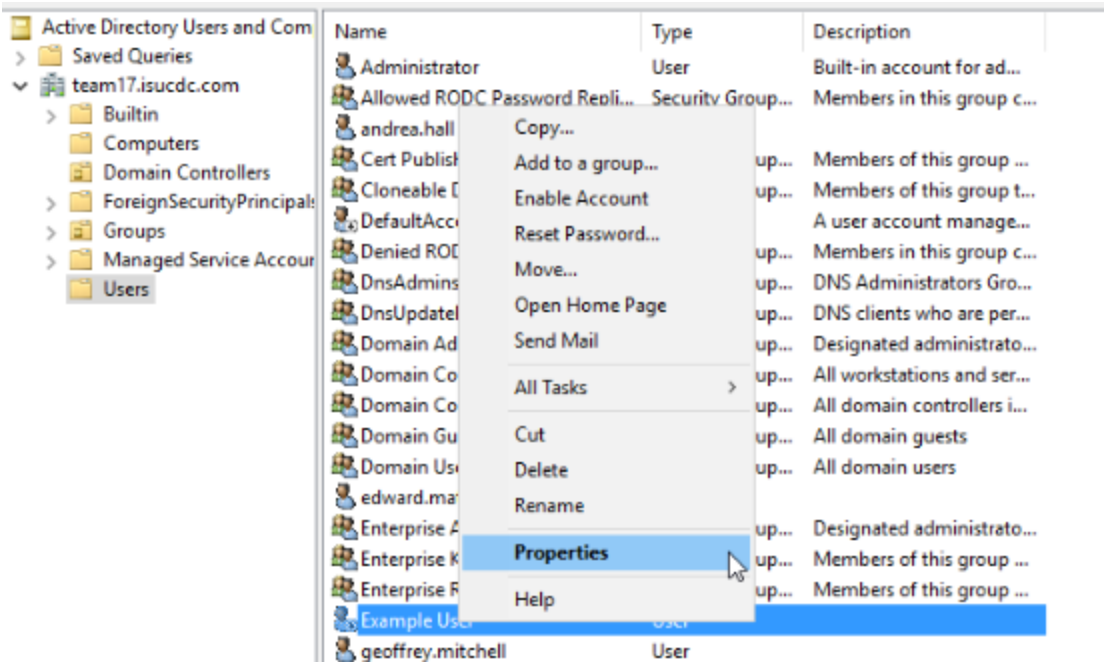


7. Input the password for the new user in both the ‘Password’ and ‘Confirm Password’ boxes. After that, ensure that the only checkboxes enabled under the password are ‘User cannot change password’ and 'Password never expires.’ After that, press on ‘Next >’

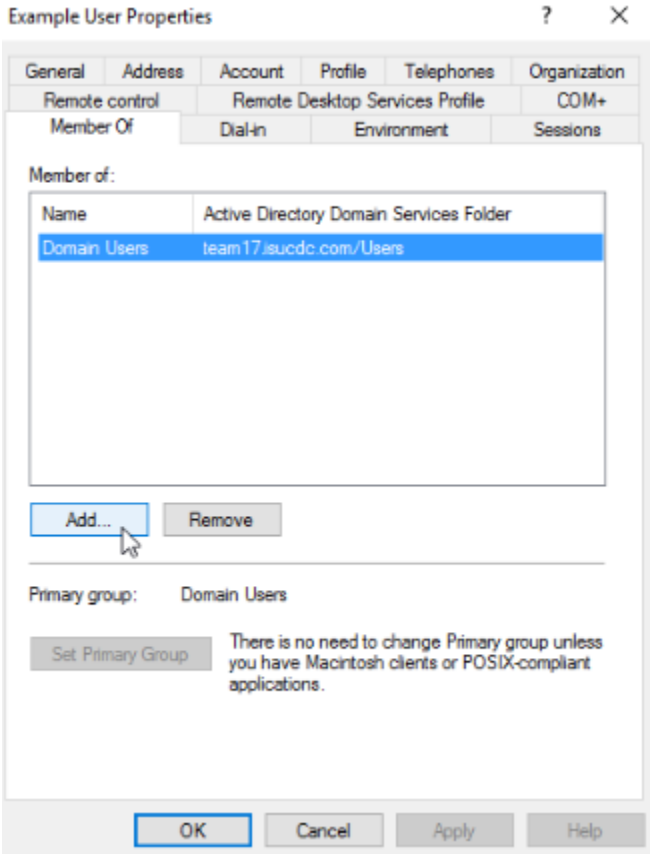


8. Press ‘Finish’ on the following screen.

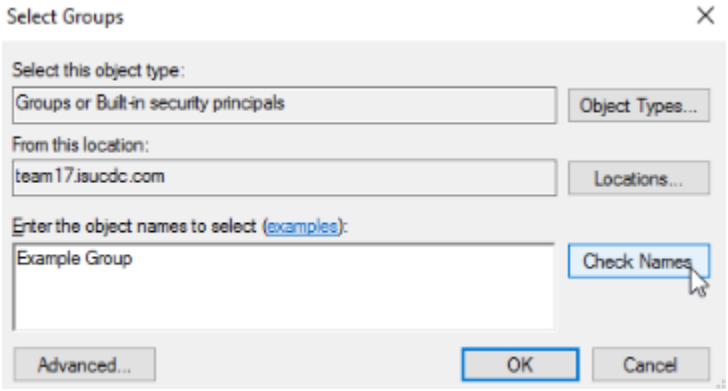
9. After that, open the OU you added the user to, right-click on the New user, and then click ‘Properties’



10. Open the ‘Member Of’ tab and click ‘Add'



11. Enter the group name inside the text area provided and press ‘Check Names’



12. If the group name gets underlined, hit ‘OK’ and you are finished. If not, check your spelling
