Employee IT User Guide Prepared By: Team 19 IT Support

Target Audience: All Employees

Welcome to the Team 19 corporate network! This guide provides simple, step-by-step instructions on how to access and use the technology services provided to you. No technical background is required. If you get stuck, please reach out to the IT Support Team using our Ticketing System (Section 3).

1. Quick Reference: Our Network Services Below is a quick directory of the websites and services you will use for your daily tasks.

- **Public Website** (www.team19.isucdc.com): Our main company website for the public.
- **IT Ticketing System** (tickets.team19.isucdc.com): Where you go to ask IT for help or report issues.
- **Management System** (mgmt.team19.isucdc.com): Internal dashboard for management staff.
- **Admin Portal** (admin.team19.isucdc.com): Restricted area for IT personnel only.

2. Using the Company Public Website Our public website is accessible to everyone and does not require a password.

How to access it:

1. Open your preferred web browser (Google Chrome, Microsoft Edge, or Mozilla Firefox).
2. Click on the address bar at the very top of the screen.
3. Type in **www.team19.isucdc.com** and press **Enter**.
4. You can now use your mouse to click on the navigation links at the top of the page to browse our company information.

3. Asking for Help (The IT Ticketing System) If your computer is broken, you forgot a password, or a service is down, you need to submit a "Ticket" to the IT department.

How to submit a help request:

1. Open your web browser and go to **tickets.team19.isucdc.com**.
2. Click the button labeled **Create Ticket** or **New Request**.
3. In the **Name** box, type your full name.
4. In the **Description** box, tell us exactly what is wrong. *(Example: "I cannot log into the management portal, it says 'wrong password'.")*
5. Click the **Submit** button.
6. An IT team member will review your request and reach out to you within 1 to 4 hours.

4. Logging into Employee Portals (Management & Admin) Certain websites, like the Management System and the Admin Portal, are locked and require your employee login credentials.

Your Employee Login Format:

- **Username:** TEAM19\yourusername (Make sure you include "TEAM19" before your name!)
- **Password:** Your assigned employee password.

How to log in:

1. Go to the portal you need to access (e.g., **mgmt.team19.isucdc.com**).
2. Locate the Login box on the screen.
3. Type your Username and Password exactly as provided to you by HR.
4. Click the **Login** button.

Troubleshooting: If the screen says "Access Denied" or "Invalid Password," please check that your Caps Lock key is turned off and try one more time. If it still fails, submit an IT Ticket.

5. Remote Desktop Access (Working from Home) *Notice: This feature is only for specifically authorized personnel.*

Remote Desktop allows you to view and control your work computer securely from another location.

How to connect:

1. Click the **Start Menu** (the Windows logo) at the bottom left of your screen.
2. Type **Remote Desktop Connection** into the search bar and click on the app that appears.
3. A small window will pop up. In the **Computer** box, type the address of the server you were told to access (for example: **ad.team19.isucdc.com**).
4. Click **Connect**.
5. A screen will ask for your credentials. Enter your TEAM19\username and your password, then click **OK**.
6. If a warning box pops up asking if you trust this connection, click **Yes**. You will now see your remote computer screen!

6. Employee Cyber Security Guidelines To keep our company safe from hackers, we require all employees to follow these basic rules:

- **Never share your password** with anyone, not even your boss or IT.
- **Do not click on links** or download attachments from unexpected emails.
- **Always log out** of your portals when you walk away from your desk.

- **Report weird behavior!** If your mouse moves on its own, or files go missing, submit an IT Ticket immediately.
