Accessing machines with SSH

Applicable Machines: www.team2.isucdc.com, wms.team2.isucdc.com, db.team2.isucdc.com

1. Open the terminal
    a. For Windows press the Windows Key and type “cmd”, Click Command prompt
    b. For Ubuntu/Linux press Ctrl + Alt + T
2. Using the following command: `ssh <username>@<hostname>` using the credentials to the account you want to connect to and then the hostname to the machine you wish to ssh into.

```
┌──(bob㉿DESKTOP-OPKIGJ0)-[~]
└─$ ssh christy.davis@db.team2.isucdc.com
```

3. After entering the command you will then be prompted to verify authenticity, type “yes” and then hit enter.

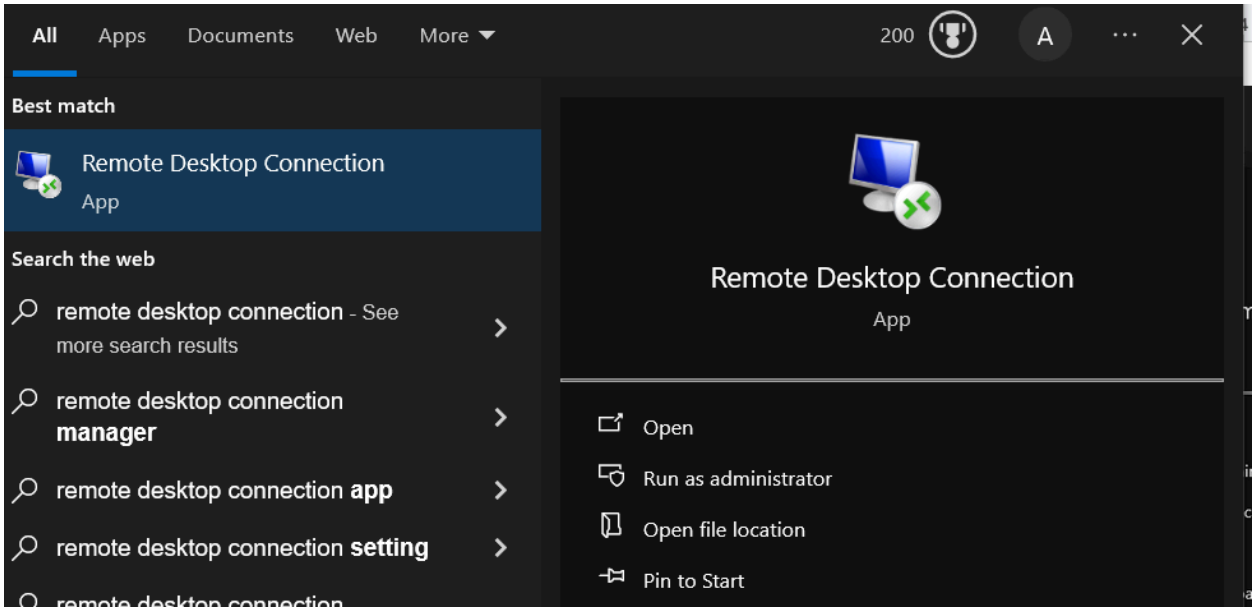
```
┌──(bob㉿DESKTOP-OPKIGJ0)-[~]
└─$ ssh christy.davis@db.team2.isucdc.com
The authenticity of host 'db.team2.isucdc.com (172.236.116.26)' can't be established.
ED25519 key fingerprint is: SHA256:SgnKCAeTaGQrO3t+bydhHDCDIt2rhrbGgmqgVY18Mzg
This key is not known by any other names.
Are you sure you want to continue connecting (yes/no/[fingerprint])? yes
```

4. After that is completed you will then be prompted to enter a password for your user. As you type the password the characters are hidden for security purposes.
5. After you finish typing the password hit enter and you should be logged in via ssh.

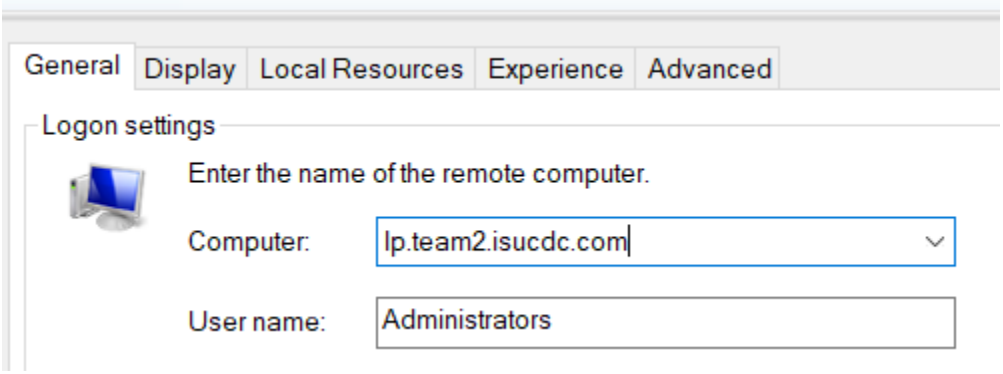
Accessing machines with RDP

Applicable Machines: ad.team2.isucdc.com (AD), lp.team2.isucdc.com (Label Printer)

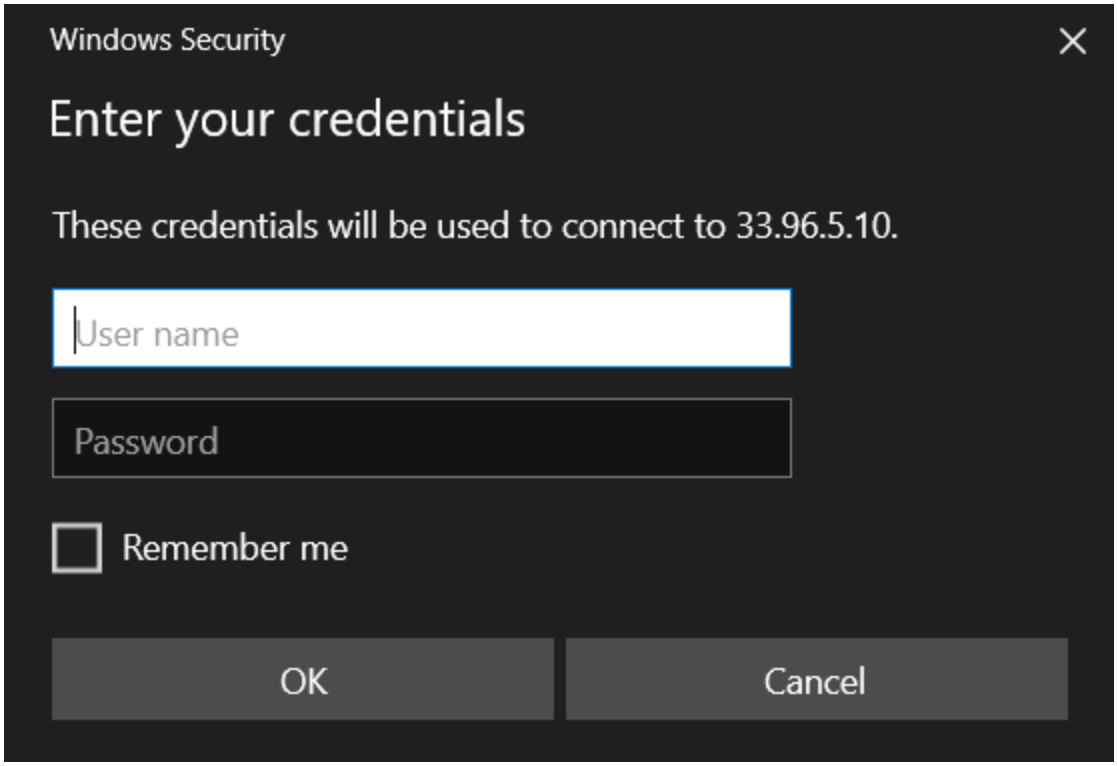
1. Press the windows key to enter the start menu
2. Search for the "Remote Desktop Connection" application



3. Open the application then you will then enter the hostname of the machine you will access (ad or lp)



4. The username field is formatted as <username>
    a. If you RDP into the AD machine it is formatted TEAM2\<username>
5. Click connect



6. Sign in with the credentials of the user you wish to log in as

   Note: it may simply ask for a password if you already entered the username in step 4

7. Lastly, click OK to connect into the machine

Updating Item Stock

Applicable Machines: lp.team2.isucdc.com (DB)

1. Open the terminal
    a. For Windows press the Windows Key and type “cmd”, Click Command prompt
    b. For Ubuntu/Linux press Ctrl + Alt + T
2. Type out: `mysql -h db.team2.isucdc.com -u <username> -p --ssl-verify-server-cert=OFF`. You will be prompted for your password. Make sure to enter it properly

```
ire@nixy ~/downloads> mysql -h db.team2.isucdc.com -u david.bailey -p --ssl-verify-server-cert=OFF
mysql: Deprecated program name. It will be removed in a future release, use '/nix/store/rdv2rssx2qnxr
Enter password:
```

3. After you login you’ll be greeted with the mysql repl prompt

```
ire@nixy ~/downloads> mysql -h db.team2.isucdc.com -u david.bailey -p --ssl-verify-server-cert=OFF
mysql: Deprecated program name. It will be removed in a future release, use '/nix/store/rdv2rssx2qnx
Enter password:
Welcome to the MariaDB monitor.  Commands end with ; or \g.
Your MySQL connection id is 2997
Server version: 5.7.33-0ubuntu0.16.04.1 (Ubuntu)

Copyright (c) 2000, 2018, Oracle, MariaDB Corporation Ab and others.

Type 'help;' or '\h' for help. Type '\c' to clear the current input statement.

MySQL [(none)]>
```

4. Run this series of commands to view the current inventory:
    a. `\u iseage_db`
    b. `SHOW TABLES`
    c. `SELECT * FROM items`

5. Once done, you should see a result like this:

```
MySQL [(none)]> \u iseage_db
Reading table information for completion of table and column names
You can turn off this feature to get a quicker startup with -A

Database changed
MySQL [iseage_db]> SHOW TABLES;
+---------------------+
| Tables_in_iseage_db |
+---------------------+
| items               |
+---------------------+
1 row in set (0.030 sec)

MySQL [iseage_db]> SELECT * FROM items;
+----+---------------------+--------------------------------+-------+----------+
| id | description         | name                           | price | quantity |
+----+---------------------+--------------------------------+-------+----------+
|  1 | 6-pack              | Fahrenheit Radberry Rush       | 10.99 |       99 |
|  2 | Individual bottles  | Fahrenheit Watermelon          |  2.99 |       80 |
|  3 | Drink mix           | 0-Degrees Fahrenheit (Lemonade) |  6.77 |      100 |
|  4 | 1-gallon            | Fahrenheit Iced Tea            |  7.87 |       80 |
|  5 | Super yummy cookies | Yummy Cookies                  | 10000 |        5 |
|  6 | Cheap apricots      | Alex's Apricots                |   0.5 |       96 |
+----+---------------------+--------------------------------+-------+----------+
6 rows in set (0.031 sec)

MySQL [iseage_db]>
```

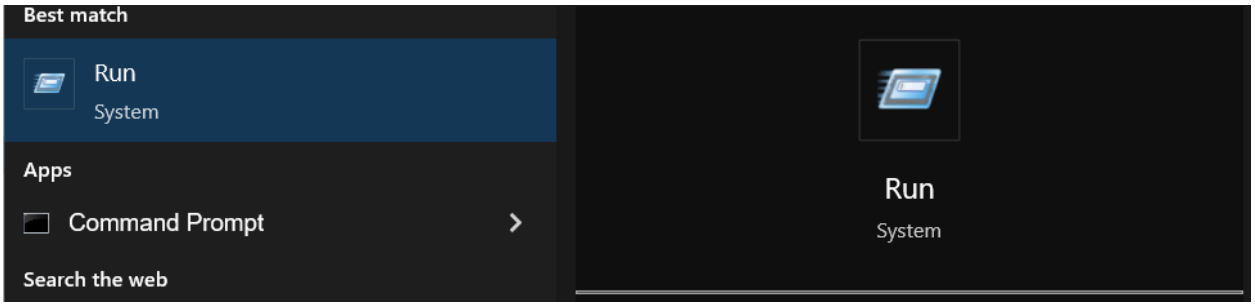
6. Steer clear of modifying any column that isn't quantity. It is not your job to do such. In order to modify quantity run: `UPDATE items SET quantity = <number> WHERE id = <item-id>;`

Accessing Label Printer's Samba Share

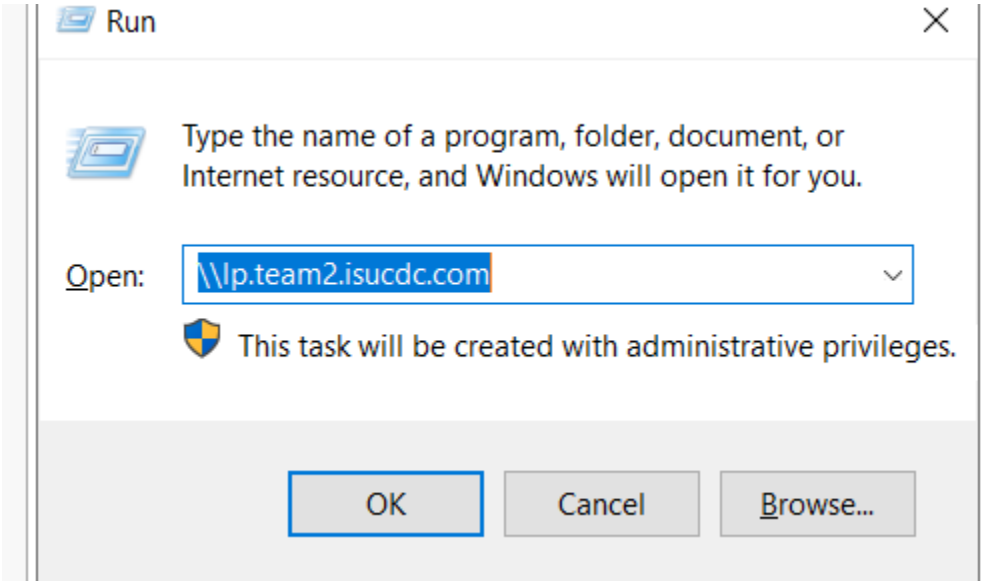
Applicable Machines: lp.team2.isucdc.com (Label Printer)

From a Windows machine

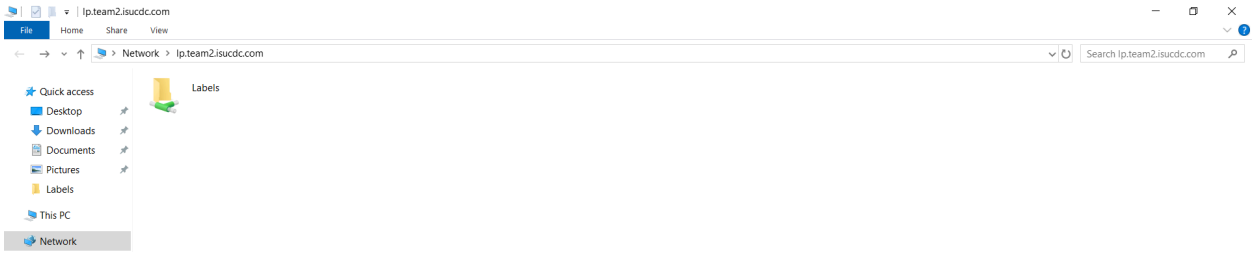
1. Press Win + R or alternatively open the search bar and searching for the "run" application



2. Press enter then type "\\lp.team2.isucdc.com"



Note: it would use your user credentials used to log into the machine if not enter the same username and password for your user



3. Now you have access to the files needed in the Label folder

From a Linux machine

1. Open the terminal
2. Install “smbclient” by using the following command “sudo apt install smbclient -y“ if not installed
3. You then connect to the machine using the command “smbclient //lp.team2.isucdc.com -U team2\\<username>” replacing <username> with the user you wish to connect to

```
┌──(bob㉿DESKTOP-OPKIGJ0)-[~]
└─$ smbclient //lp.team2.isucdc.com/Labels -U team2\\jacqueline.elliott
```

4. You will be prompted to enter your password. Type your password and press Enter.
5. Once inside you will see “smb: \>” meaning you are now connected and can interact with the shared files.
6. To view files within the smbclient you can use the “ls” (list) command

```
smb: \> ls
  .                                   D        0  Wed Apr 22 17:58:30 2026
  ..                                  D        0  Wed Apr 22 17:58:30 2026
  Barcodes                            D        0  Wed Apr 22 19:52:34 2026
  LabelWatcher.ps1                    A      728  Mon Mar  9 21:33:48 2026
  WMS Data                            D        0  Wed Apr 22 19:52:34 2026
  ZPL                                 D        0  Wed Apr 22 19:52:33 2026
  zplService.ps1                      A     3962  Wed Apr 22 15:57:51 2026
  zplService_old                      A     2301  Sun Mar  1 20:26:52 2026

                23435263 blocks of size 4096. 20333346 blocks available
smb: \> |
```

7. To download and view a file use the command “get <filename>” then use “cat <filename>” in the terminal to read it after downloading it. In order to upload a file use the command “put <filename>”. To return to the previous directory use “cd ..”. In order to leave the share use “exit”

Using the Public Website

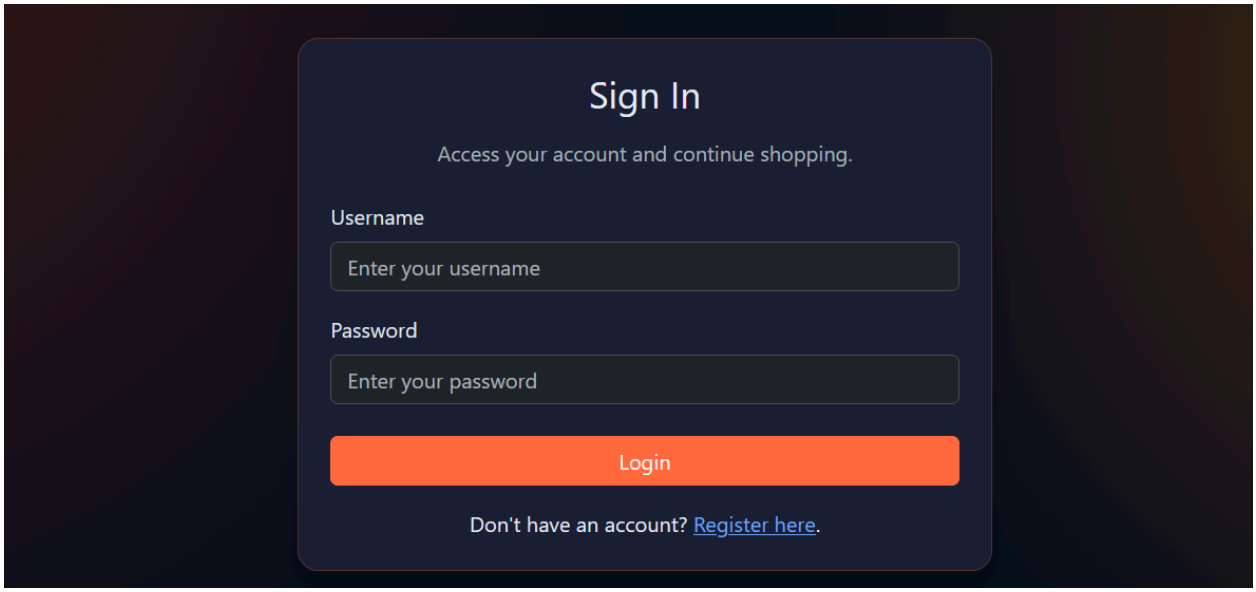
Hostname: www.team2.isucdc.com

1. Open up the browser of your choice
2. In the address bar type in "http://www.team2.isucdc.com"
3. If you see a Warning: Potential Security Risk Ahead warning, Click advanced, then Accept the Risk and Continue.

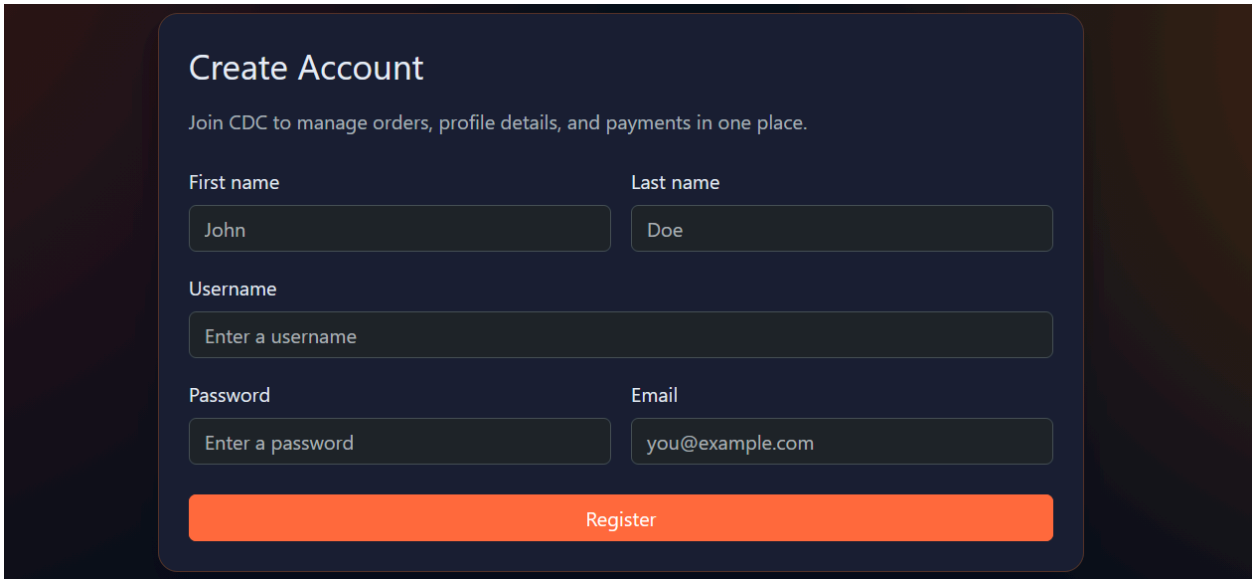
4. Upon entering the main page of the site click on the login button on the upper right corner

Creating a user account

1. Select the Login text at the top right of the website. You will then see this

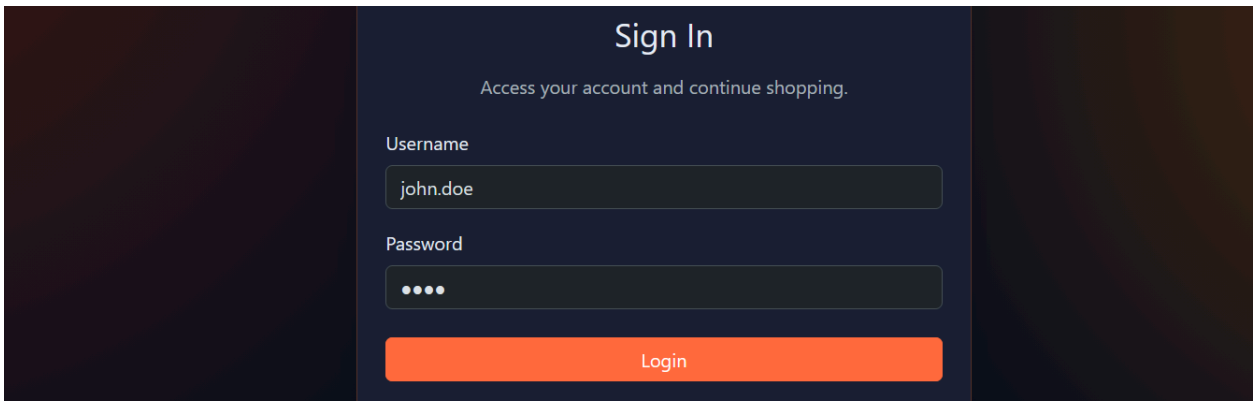


2. select the “Register here” button



3. Enter in your user information and password and then click “register”

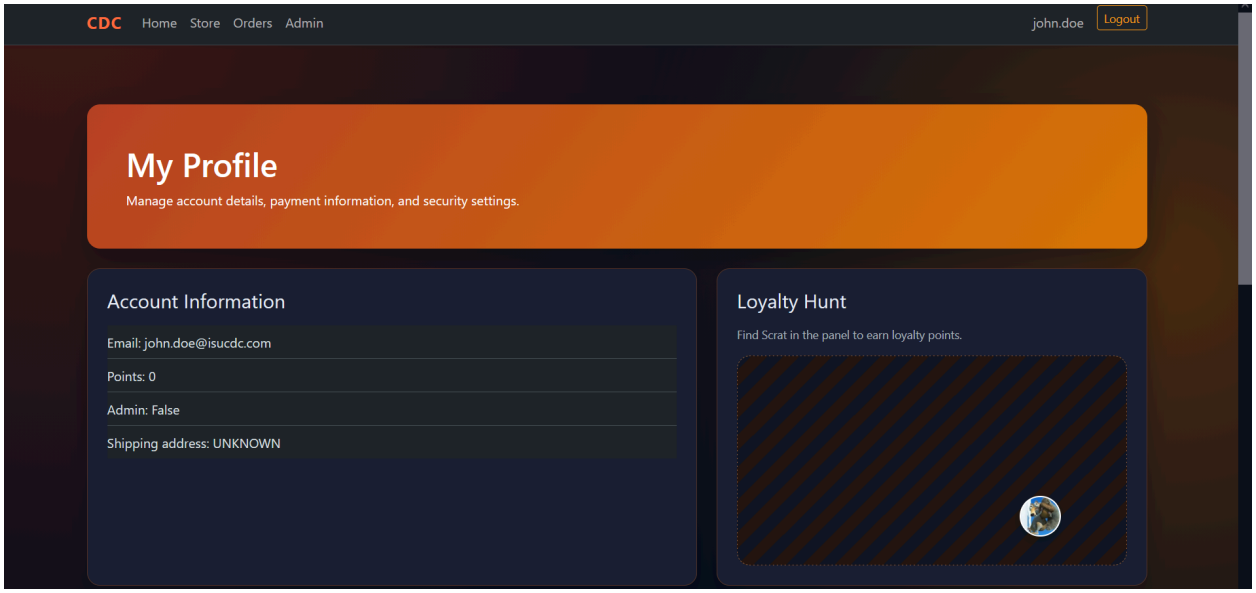
4. After successfully doing so you will be redirected to the Sign in page



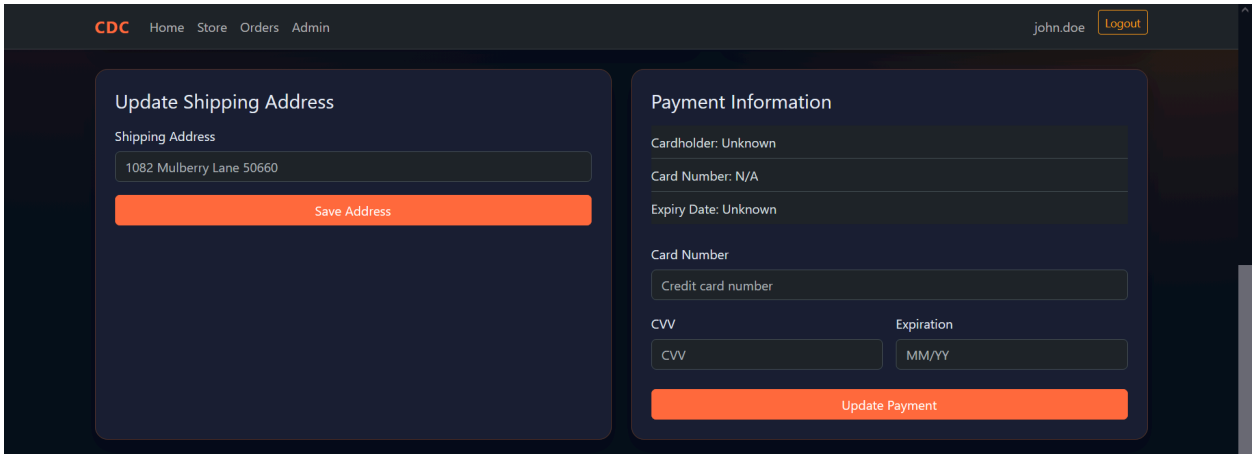
5. Enter your username and password
6. Once successfully logged in you will be redirected to the main page with your username at the top right

Updating/Adding payment/shipping address information to your profile

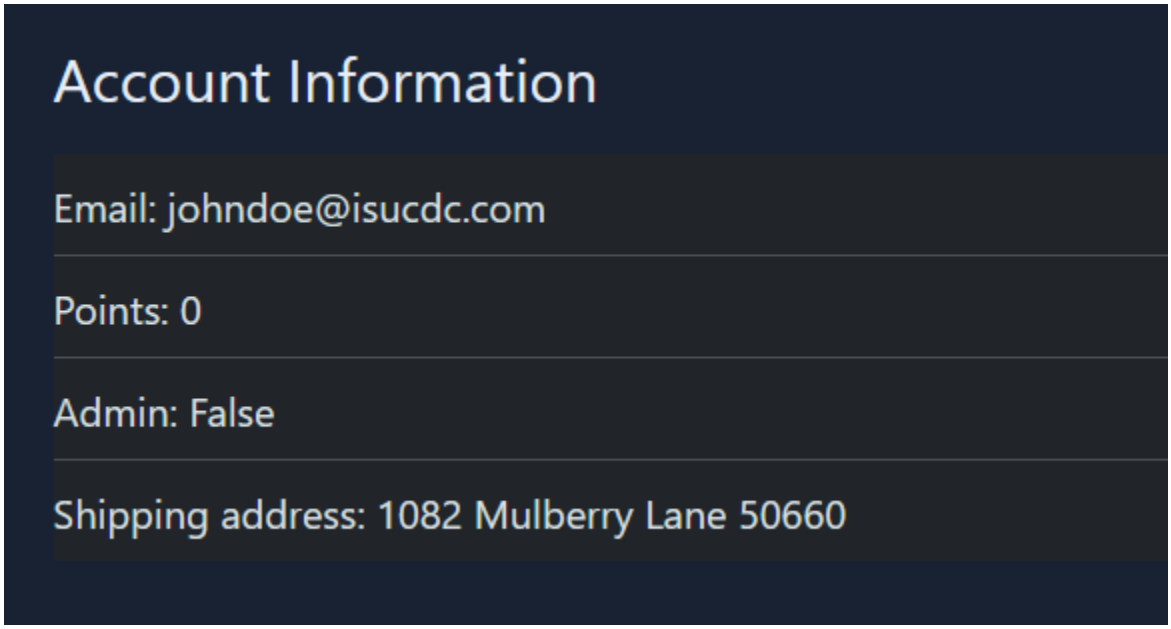
1. After creating an account and logging in, on the left hand corner click on your username



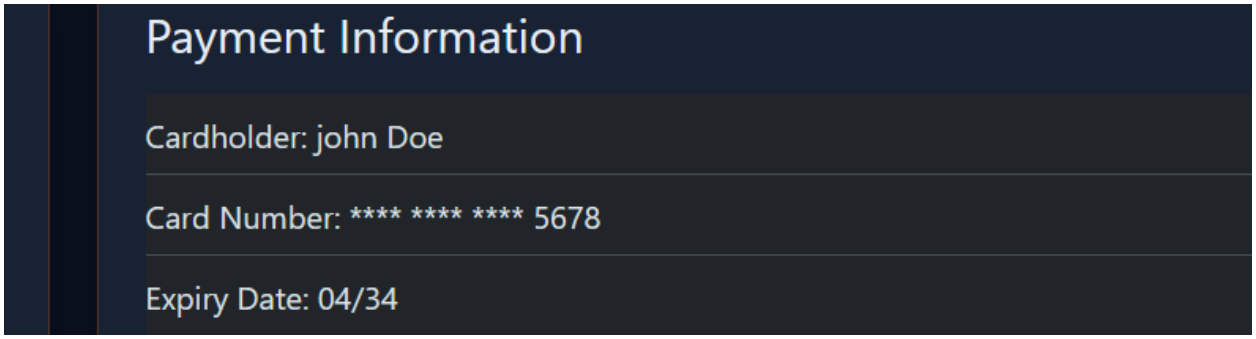
2. From your profile page scroll down till you see “Update Shipping Address”



3. In this section you fill out all the information fields. Then select the Update payment as well as updating your address
4. Your Shipping address will now be grouped at the top of your profile page

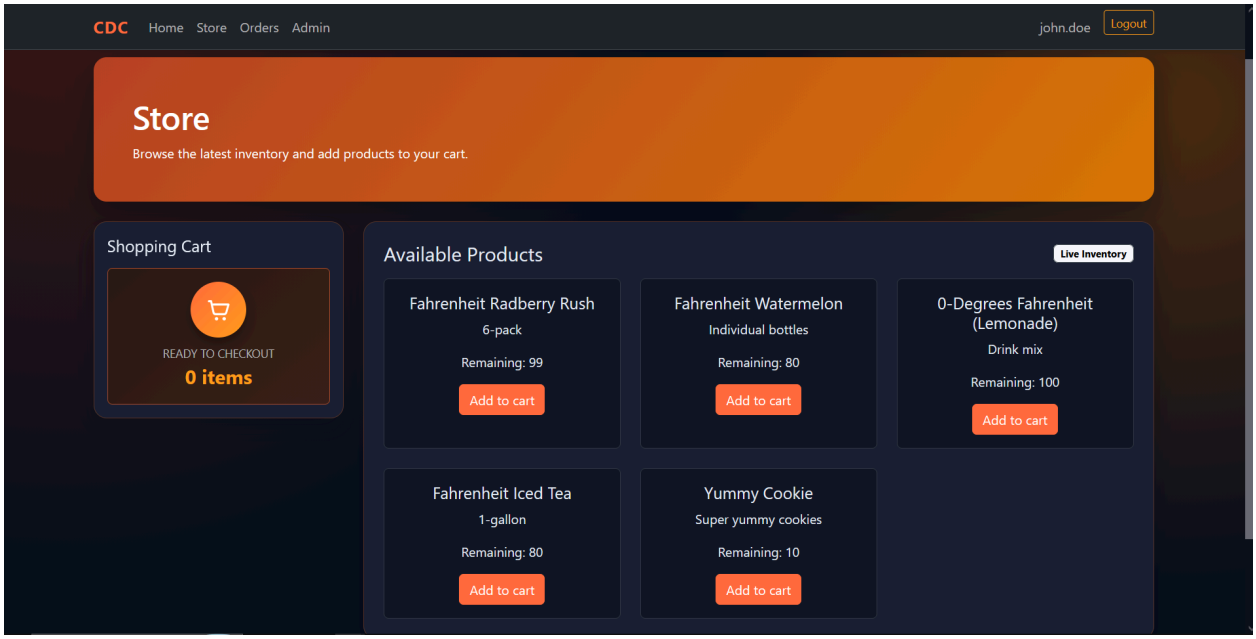


5. Payment information will now be filled out in Payment Information section

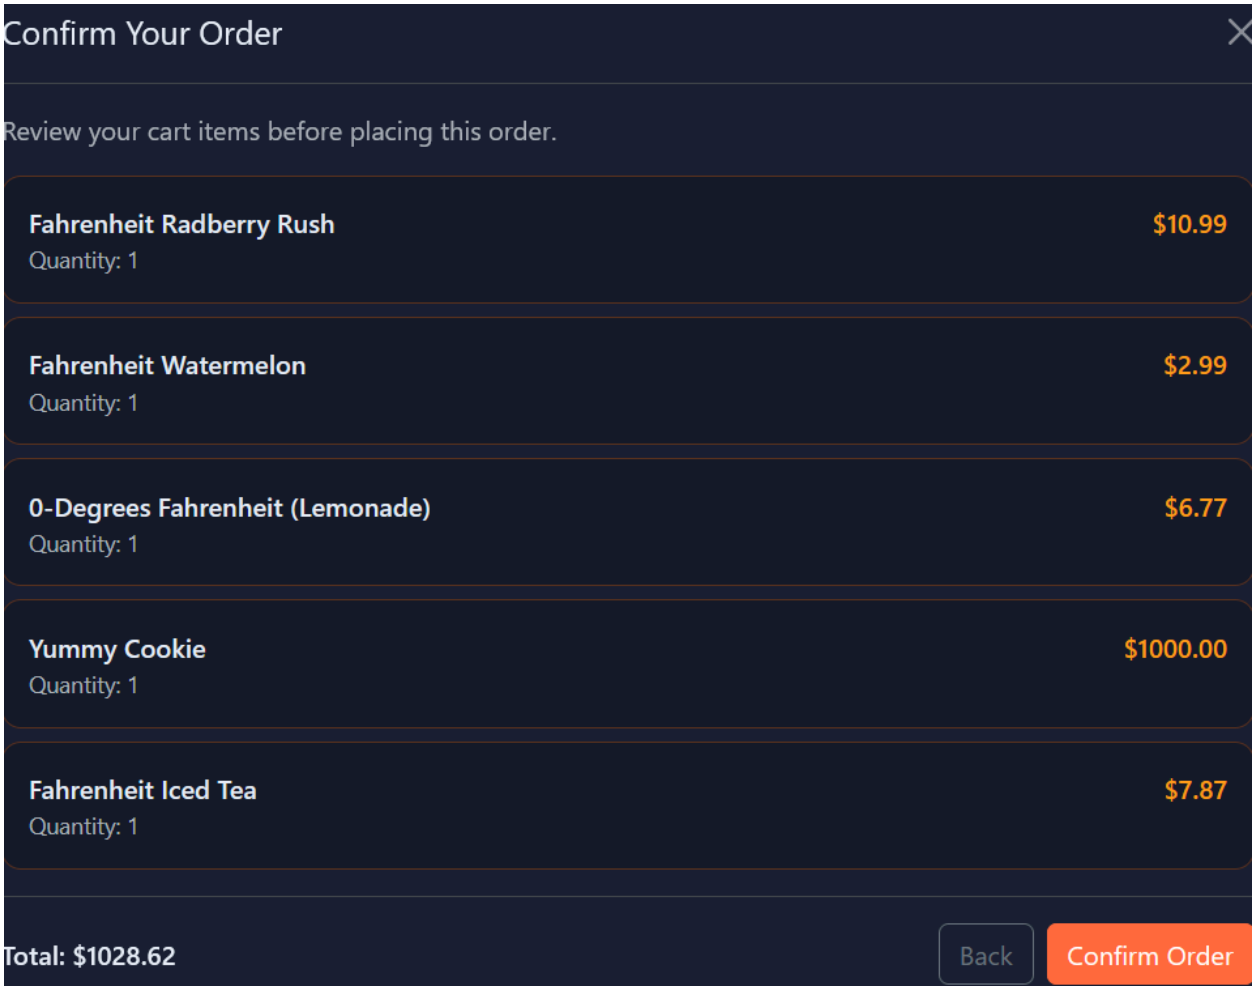


Placing an order

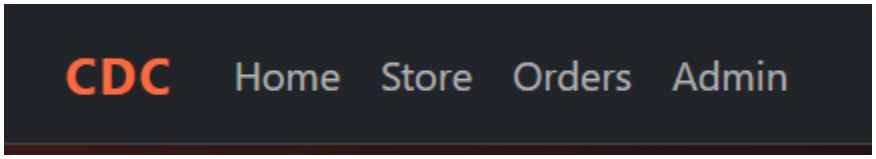
1. From the homepage select the shop button on the top left corner of the page



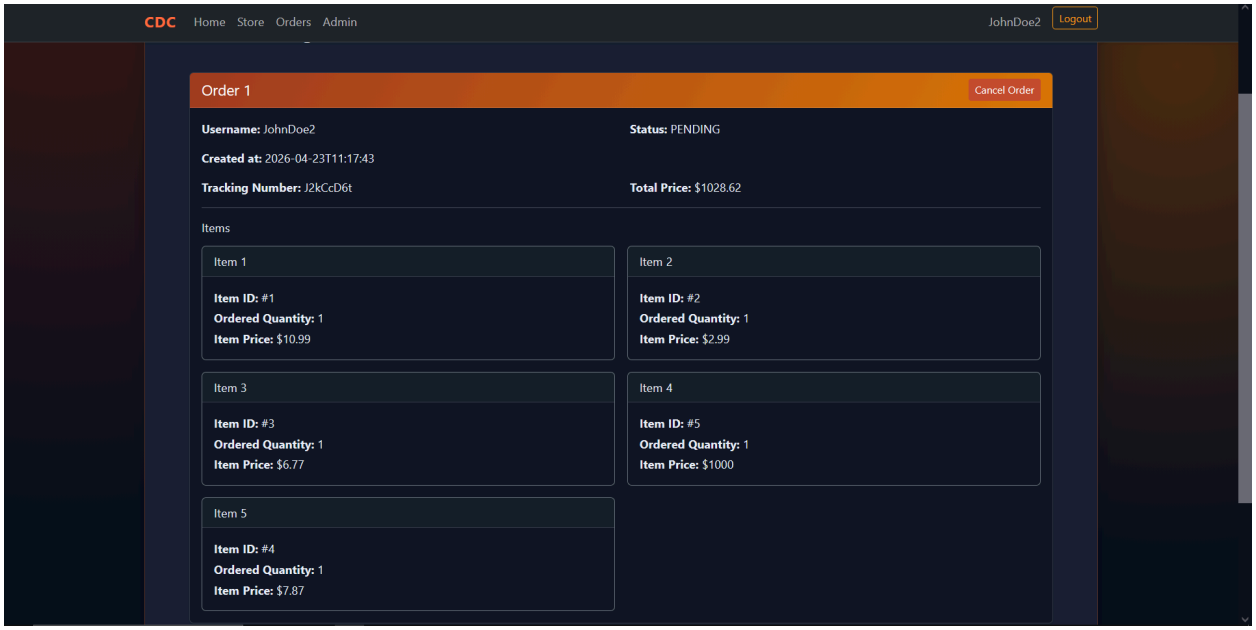
2. You will then be redirected to this page to place an order and make purchases
3. Select the desired amount of said items you wish to order and then after adding to cadet select the orange **READY TO CHECKOUT** on the left hand sign



4. You will then see this pop up page to confirm your purchase of selected items
5. Click Confirm Order to finalize the order
6. Now in order to view your order, in any page on the top left corner select Orders

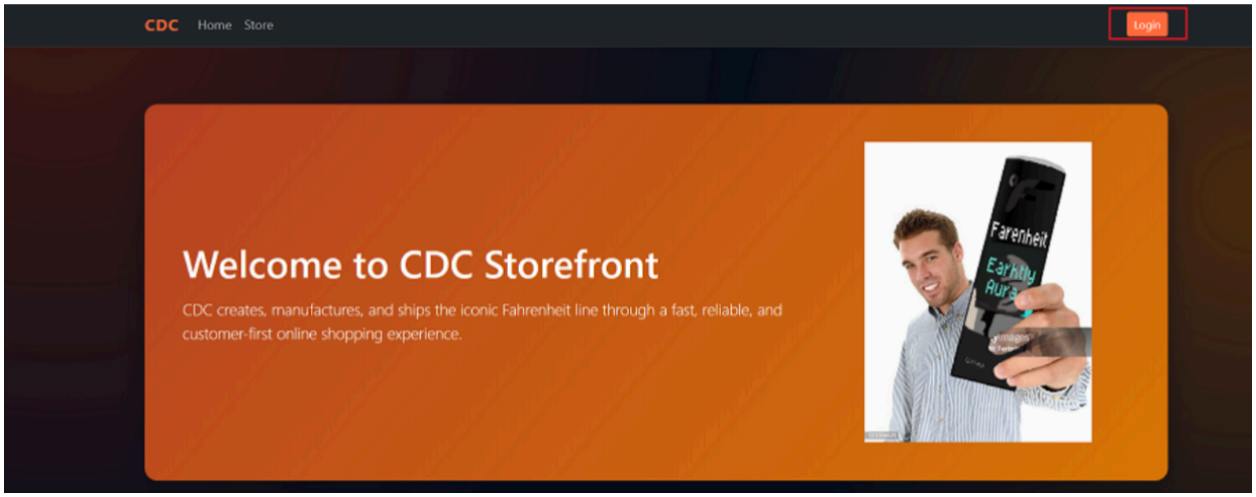


7. You can now view and track your orders and cancel orders if need be

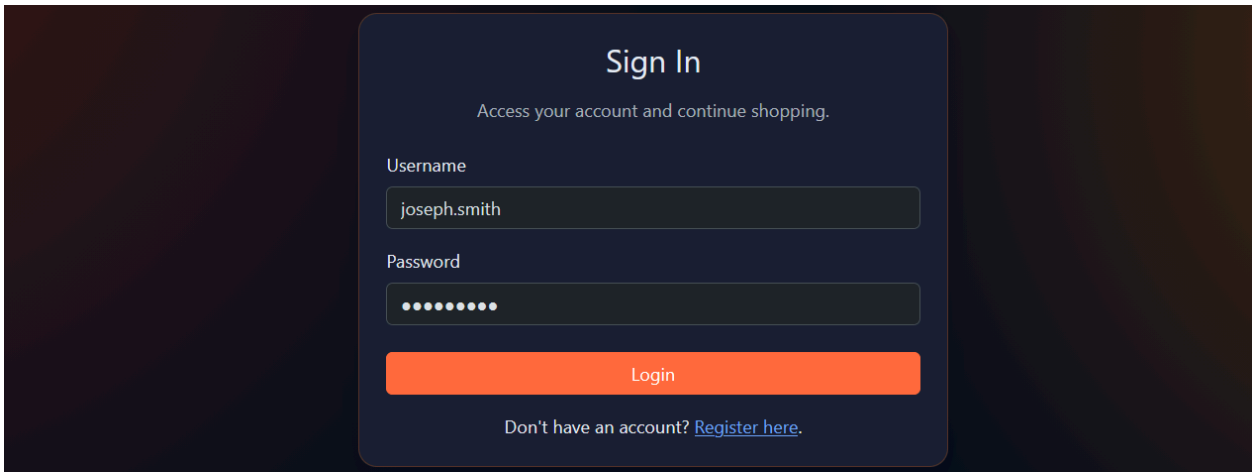


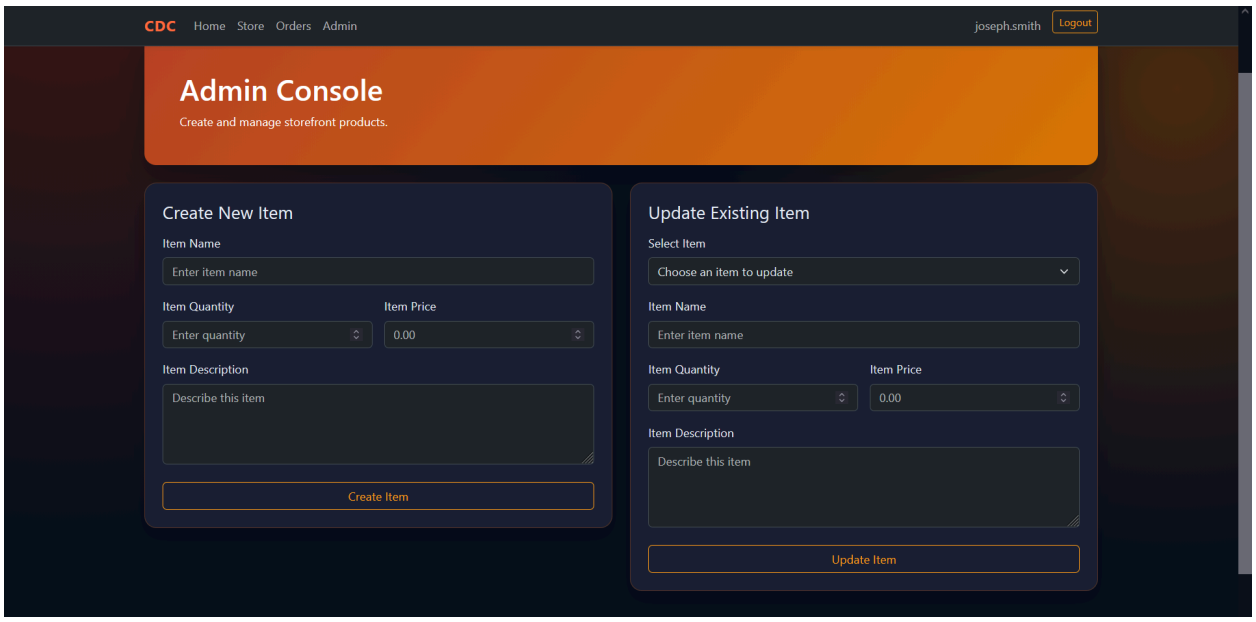
Accessing the Admin User Interface

1. Open up the browser of your choice
2. In the address bar type in "http://www.team2.isucdc.com"
3. If you see a Warning: Potential Security Risk Ahead warning, Click advanced, then Accept the Risk and Continue.
4. From the homepage select the Login button on the top right



5. Website Administrators need to insert their username and password to access the page when they sign in





6. Now you can access the admin page at this endpoint "http://www.team2.isucdc.com/admin" and can use the page as needed
