CDC Green Team Documentation

Welcome to the new digital infrastructure for Central Downtown City's transportation network. This guide will help you navigate our updated systems for buses and trains, ensuring a smooth commute for all residents.

---

1. For Citizens

Access Point: `www.team22.isucdc.com`

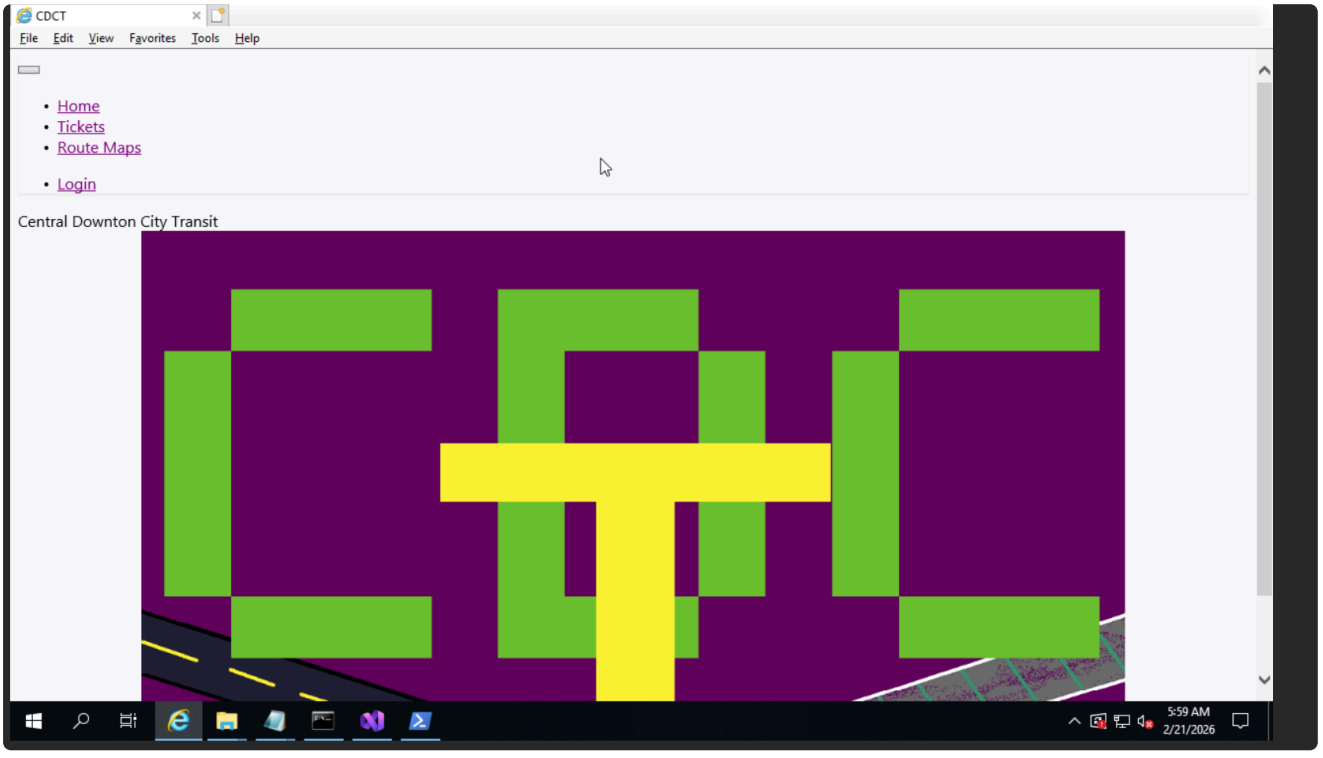
The public website is where you will manage your daily travel needs. It is designed to be accessible from any standard web browser on the competition network.

How to Get Started

- **Account Registration:** New users must sign up by providing a username and password.
- **Logging In:** Once registered, use your credentials to access your personalized dashboard.

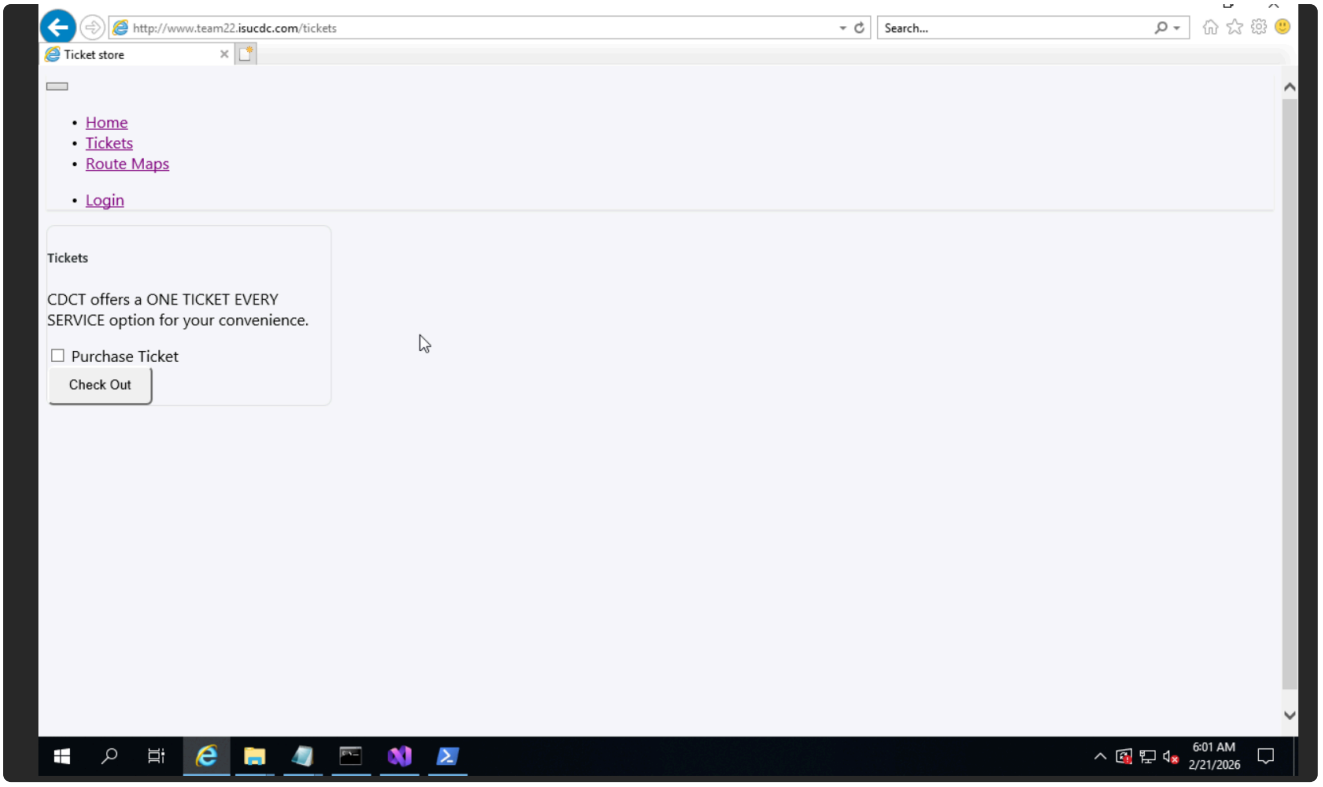
Managing Your Travel

- **Viewing Routes:** You can view all active bus and train routes to plan your journey across the city.
- **Buying Tickets:** Select your desired route and purchase a digital ticket directly through the site.
- **Scanning to Board:** When you reach a station or vehicle, use the "Scan Ticket" feature on the website to validate your pass.

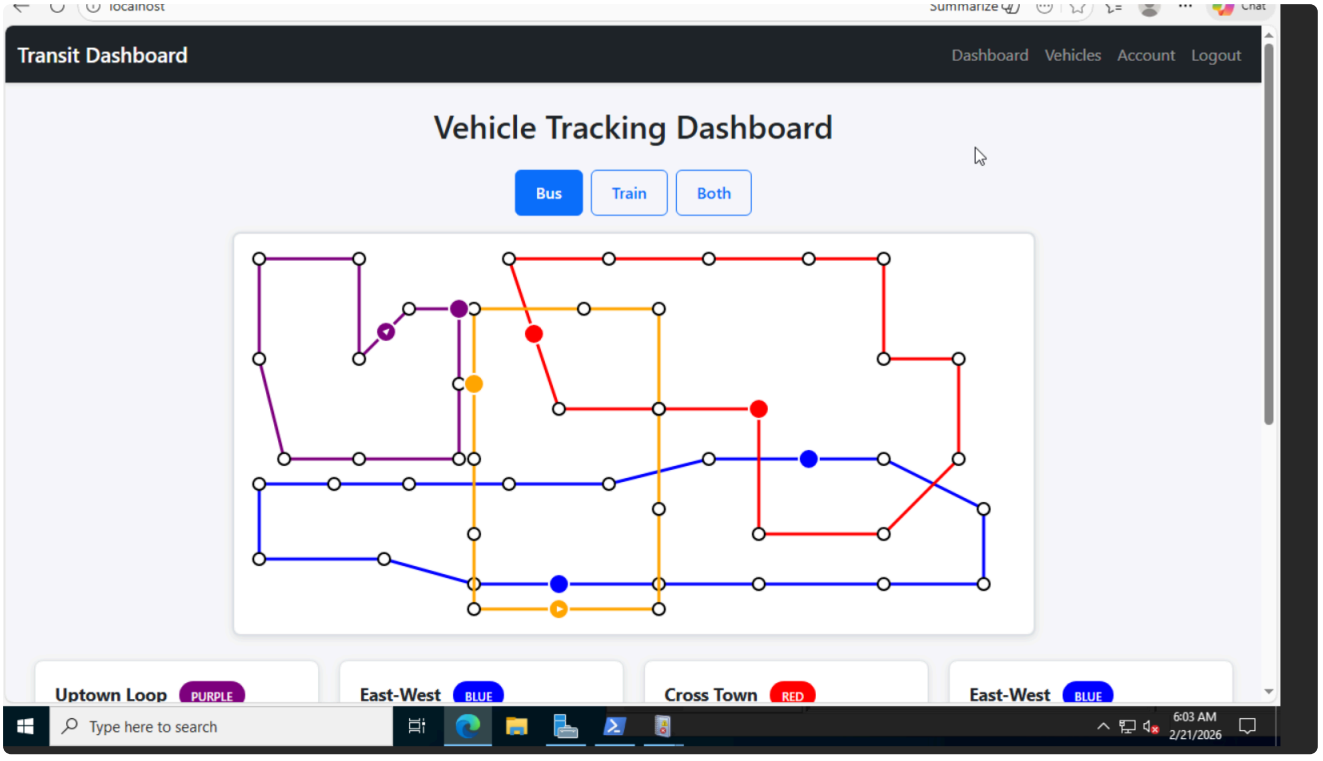


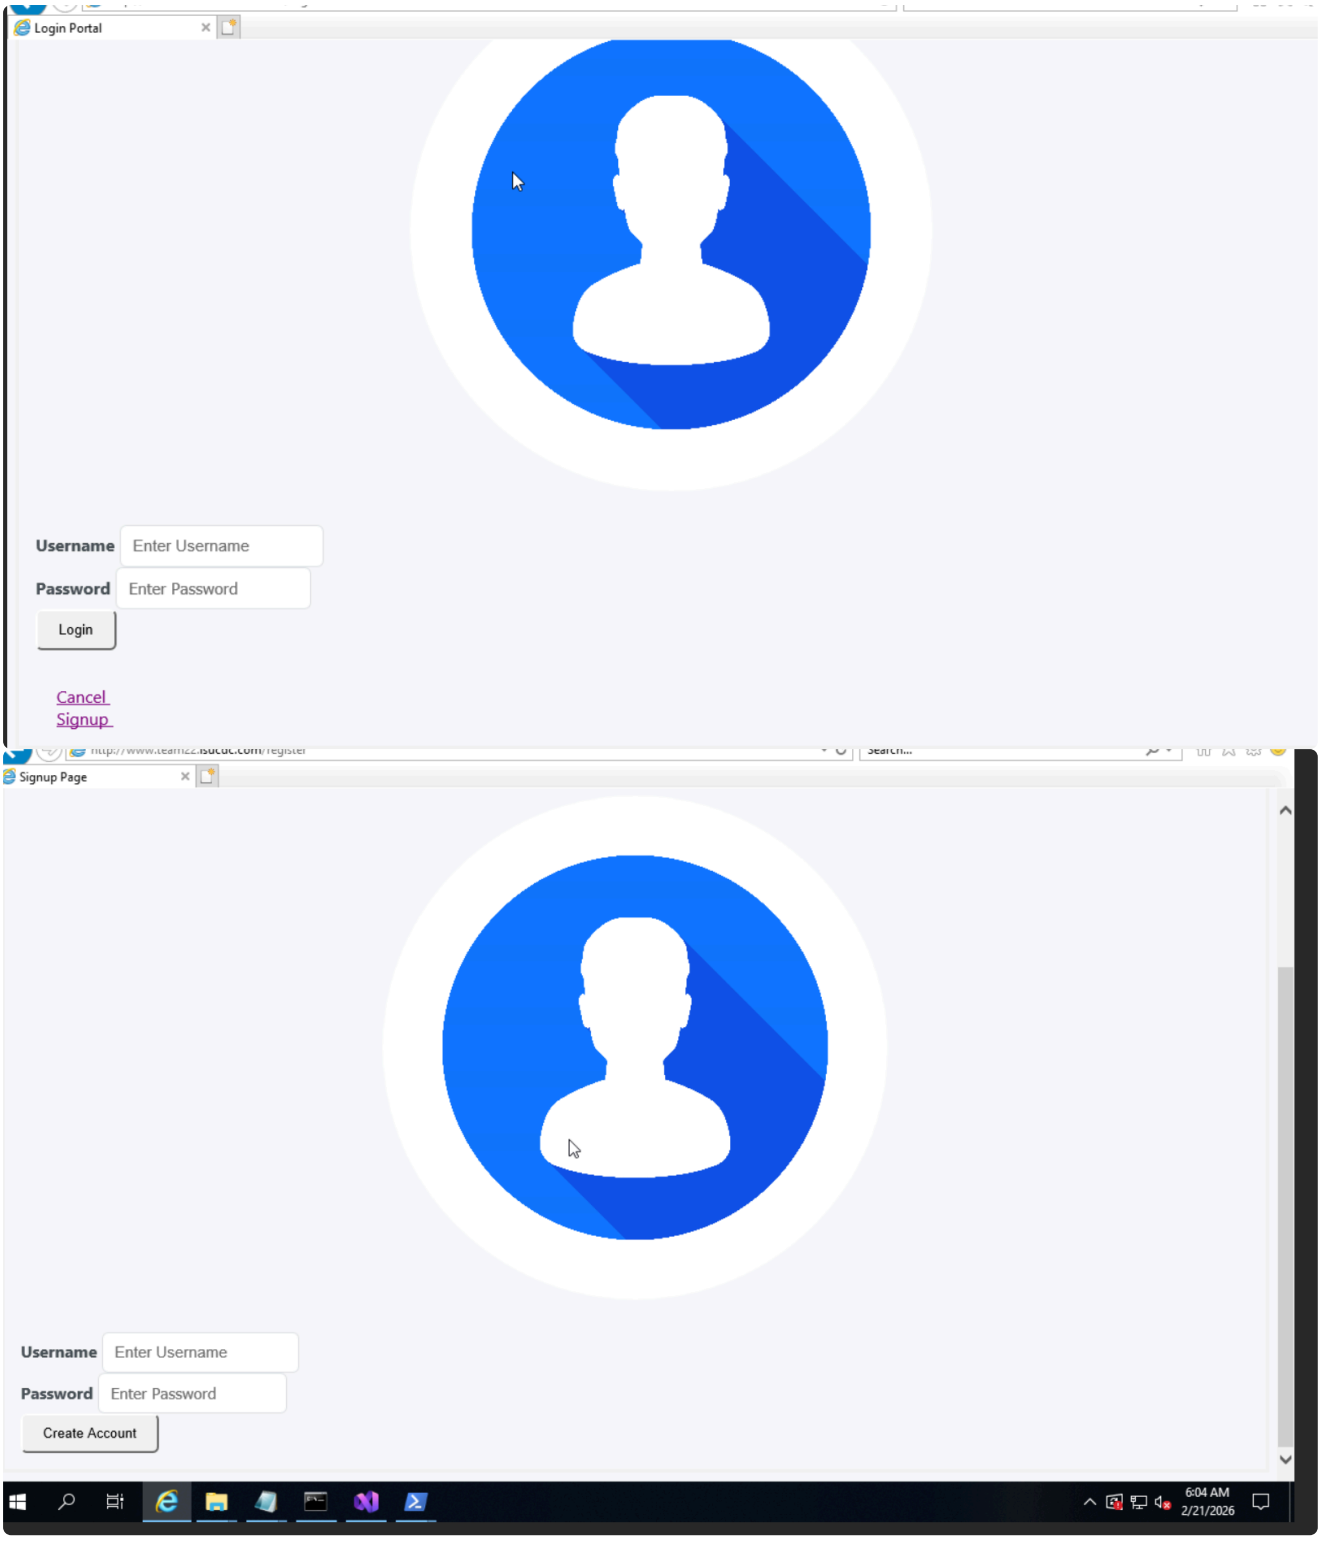
The main CDC-T website where you may purchase tickets, view the map and log in or sign up

to your account.



The ticket purchasing page, where, once signed-in you're able to purchase tickets.





The log-in and sign-up pages for existing and new users.

---

2. For Staff

Access Point: `admin.team22.isucdc.com`

This portal is strictly for Transit Administrators to ensure the city's fleet is operating efficiently.

Core Responsibilities

- **System Monitoring:** Use the dashboard to view the live status of the city's transportation fleet.
- **Fleet Management:** Administrators can manage vehicles to ensure that buses and trains are running on schedule.
- **Access Control:** Transit Admins must be able to log in and use all features to maintain city safety.

---

3. Critical Information & Security

Service Reliability

Thousands of residents depend on these systems to get to work and school. If you encounter a "Service Disruption" or cannot access a page, please report it to the IT Administrators immediately.

Security Awareness

A group of hackers has recently targeted nearby cities. To protect CDC, please follow these safety rules:

- **Report Anomalies:** If you see "forged tickets" or unusual account activity, notify support.
- **Password Safety:** Never share your login credentials with unauthorized personnel.
