Accessing the Public Website

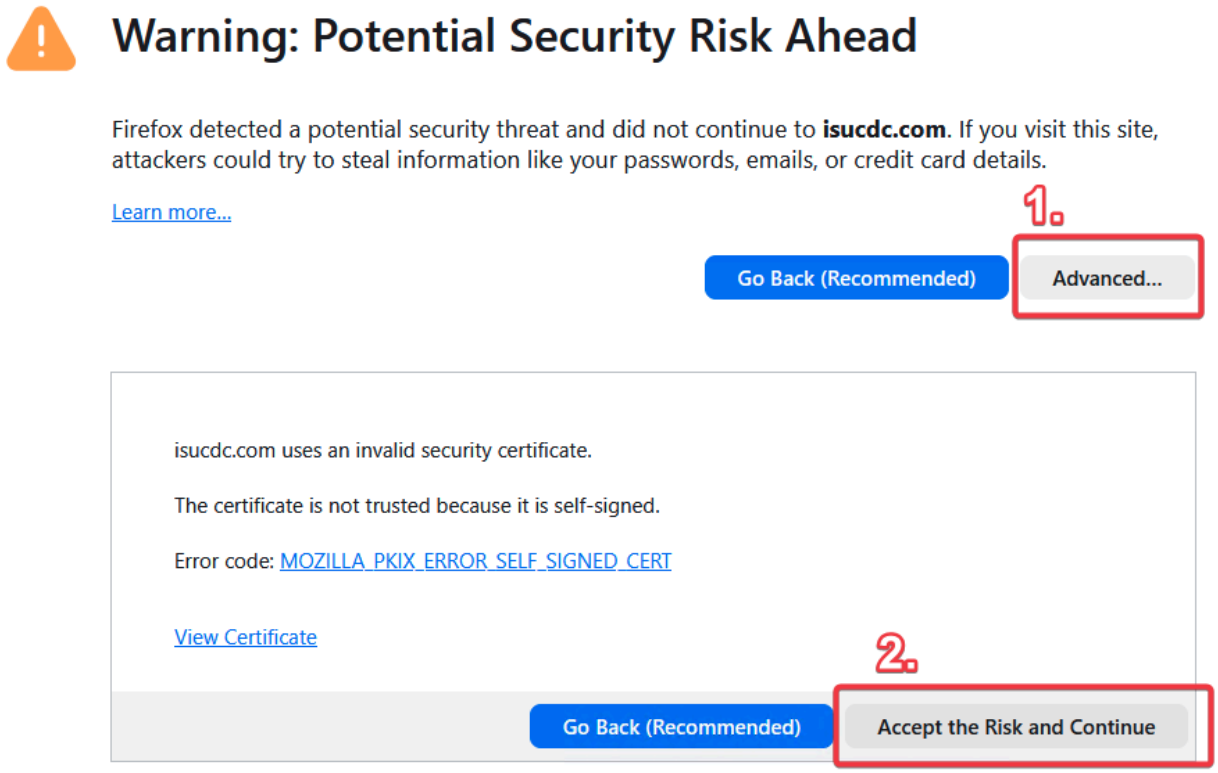
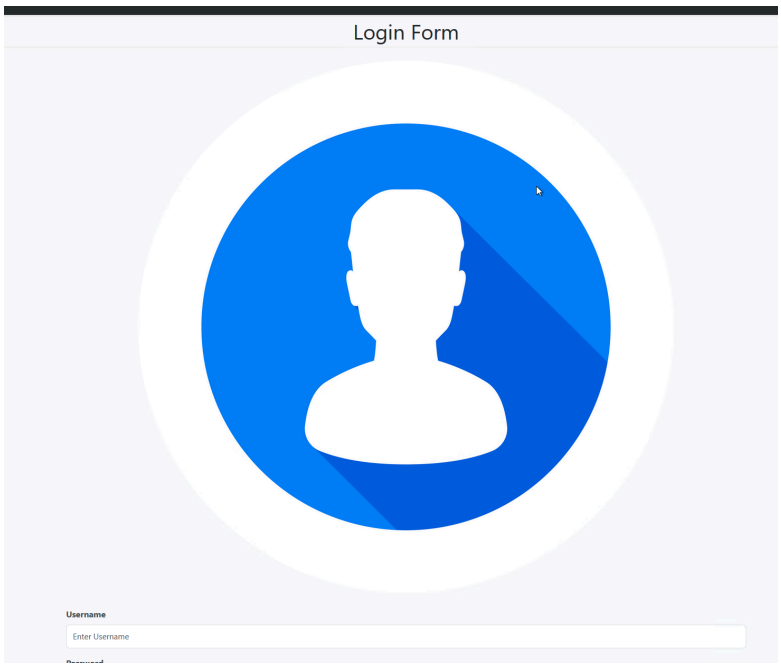
1. Open a browser of your choice.
2. In the address bar type "https://www.team8.isucdc.com".
3. If you see a Warning: Potential Security Risk Ahead warning, select advanced, then Accept the Risk and Continue.



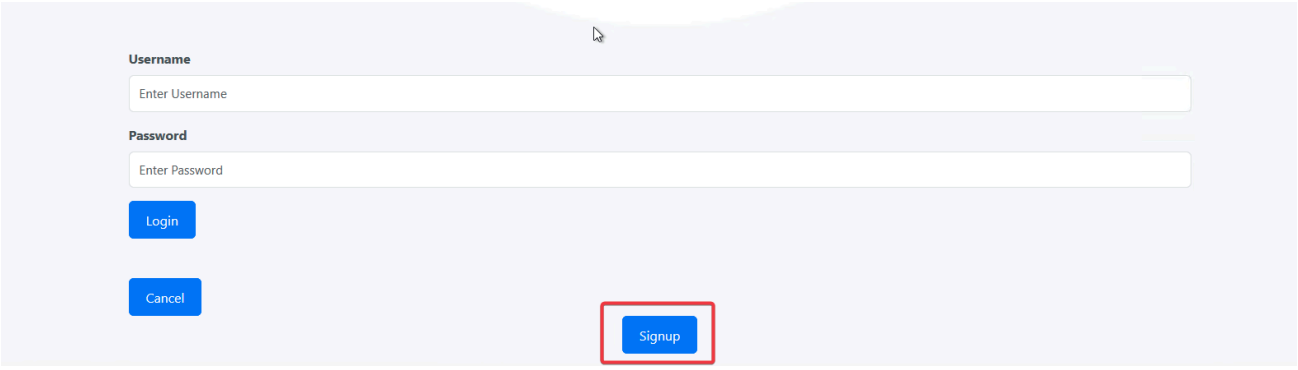
4. If the website is not loading make sure that you have https NOT http in the url.
5. You will be taken to the main page of the website. A picture of the website is shown below.

Creating an Account on the Public Website

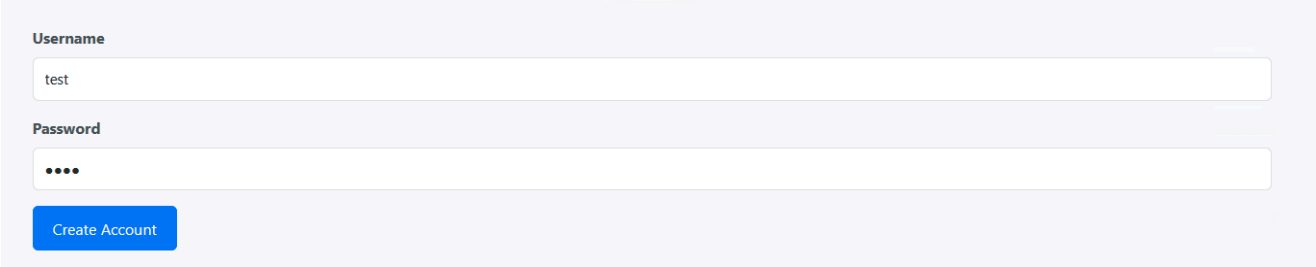
1. Select the Login text at the top right of the website. You should be taken to a page similar to this.



2. Scroll down to the bottom then select the Signup button



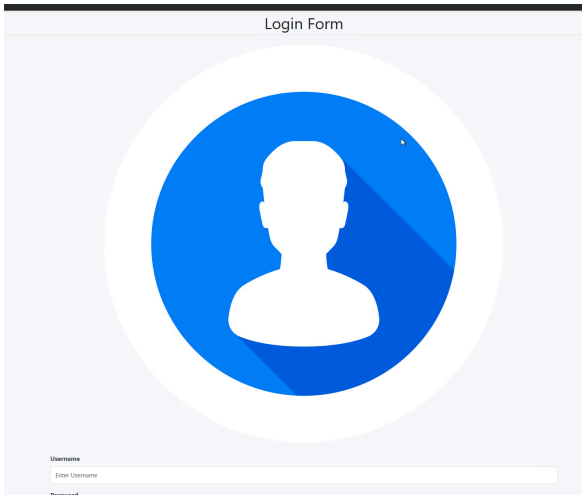
3. Then type in your Username and Password and select Create Account



4. If successful you will see New User created successfully alert. Hit OK on this alert. Now you can proceed to the Login to the Public Website Section.

Login to the Public Website

1. Select the Login text at the top right of the website. You should be taken to a page similar to this.

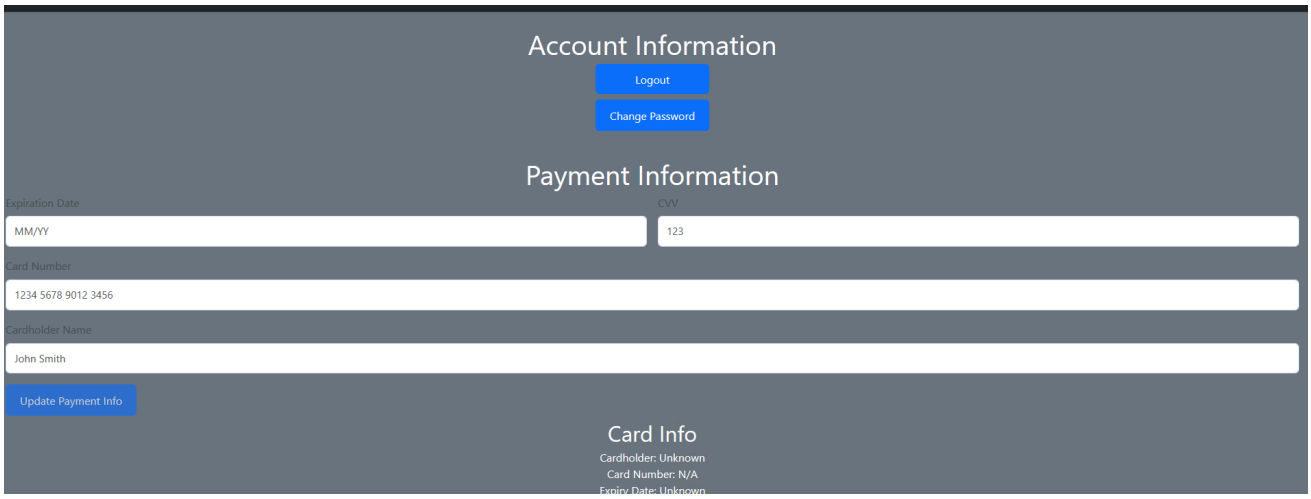


2. Scroll down then type in your username and password. Then select the Login button.

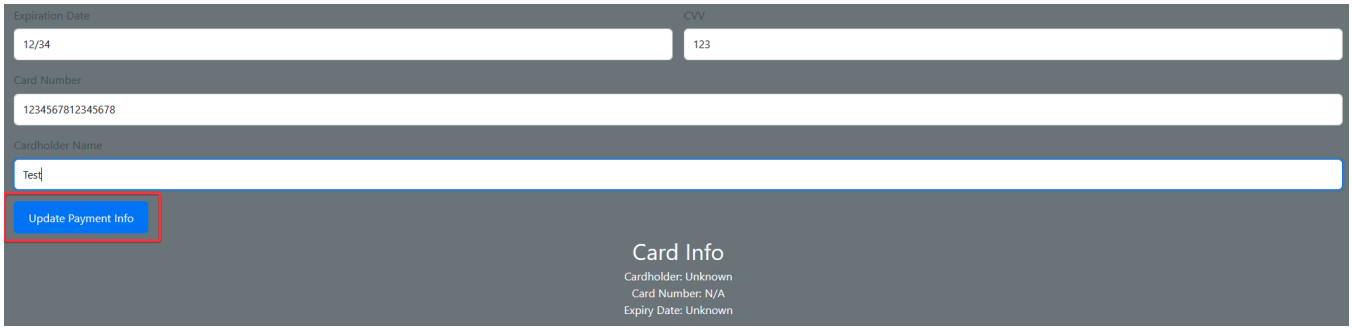
3. To confirm that you are logged in you can check the top right. The top right should now display your username instead of Login.

Updating/Adding a Payment Method

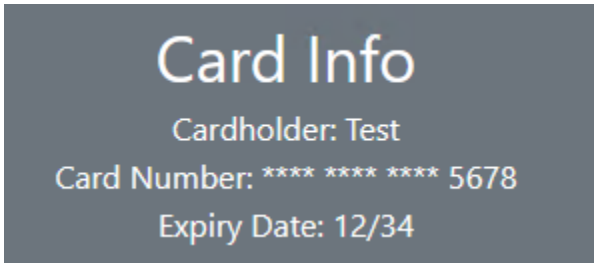
1. You must first login to your account before adding a payment method. See Login to the Public Website for instructions.
2. After logging in click on your username at the top right of the website. You will be taken to a page similar to the image below.



3. Fill out all of the Payment Information fields (Expiration Date, CVV, Card Number, and Cardholder Name). Then select the Update Payment Info button.

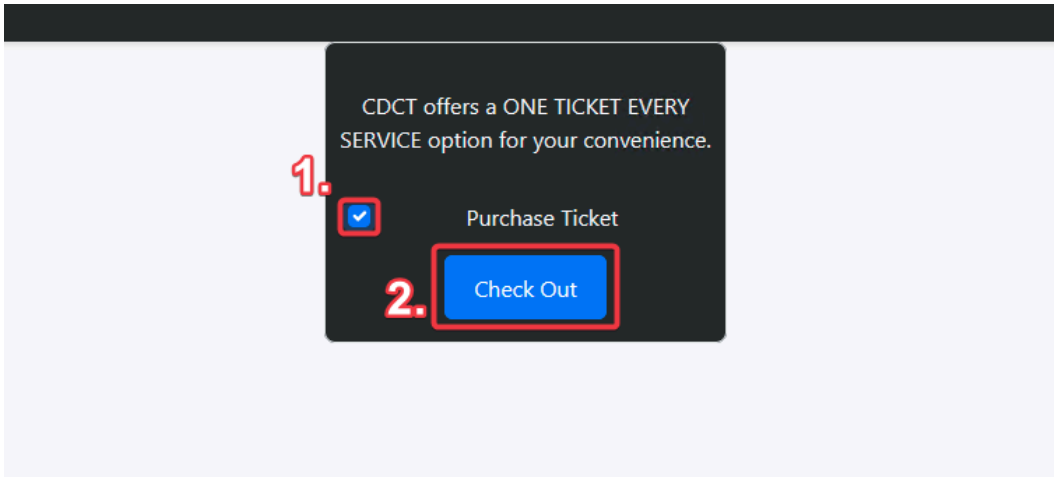


4. You should now see your payment information populated in the Card Info section.

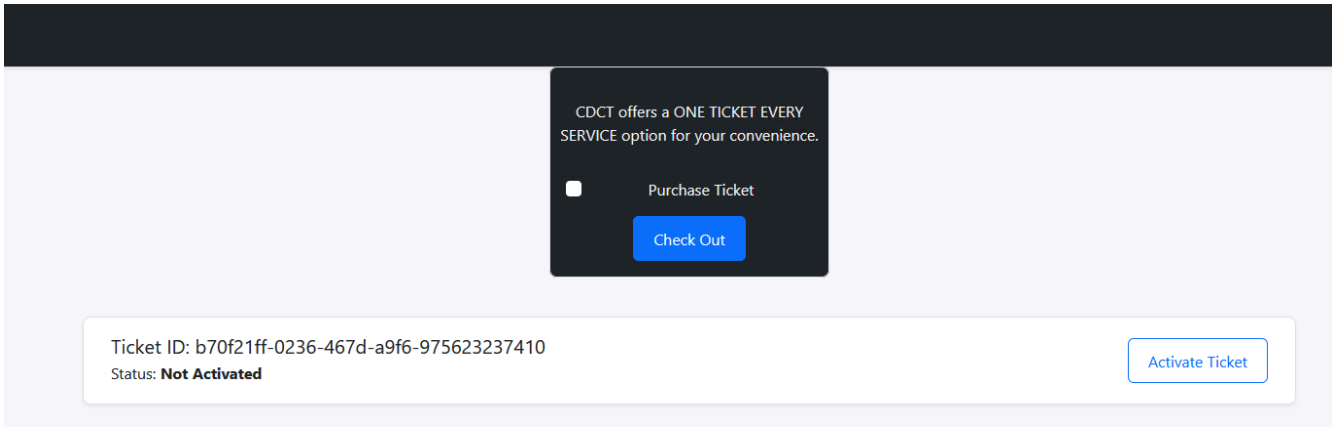


Purchasing and Using Tickets

1. You must first login to your account before purchasing or using tickets. See Login to the Public Website for instructions.
2. Select the Tickets text on the left side of the top navigation bar.
3. To purchase a ticket select the checkbox next to the Purchase Ticket text, then select the Check Out button.



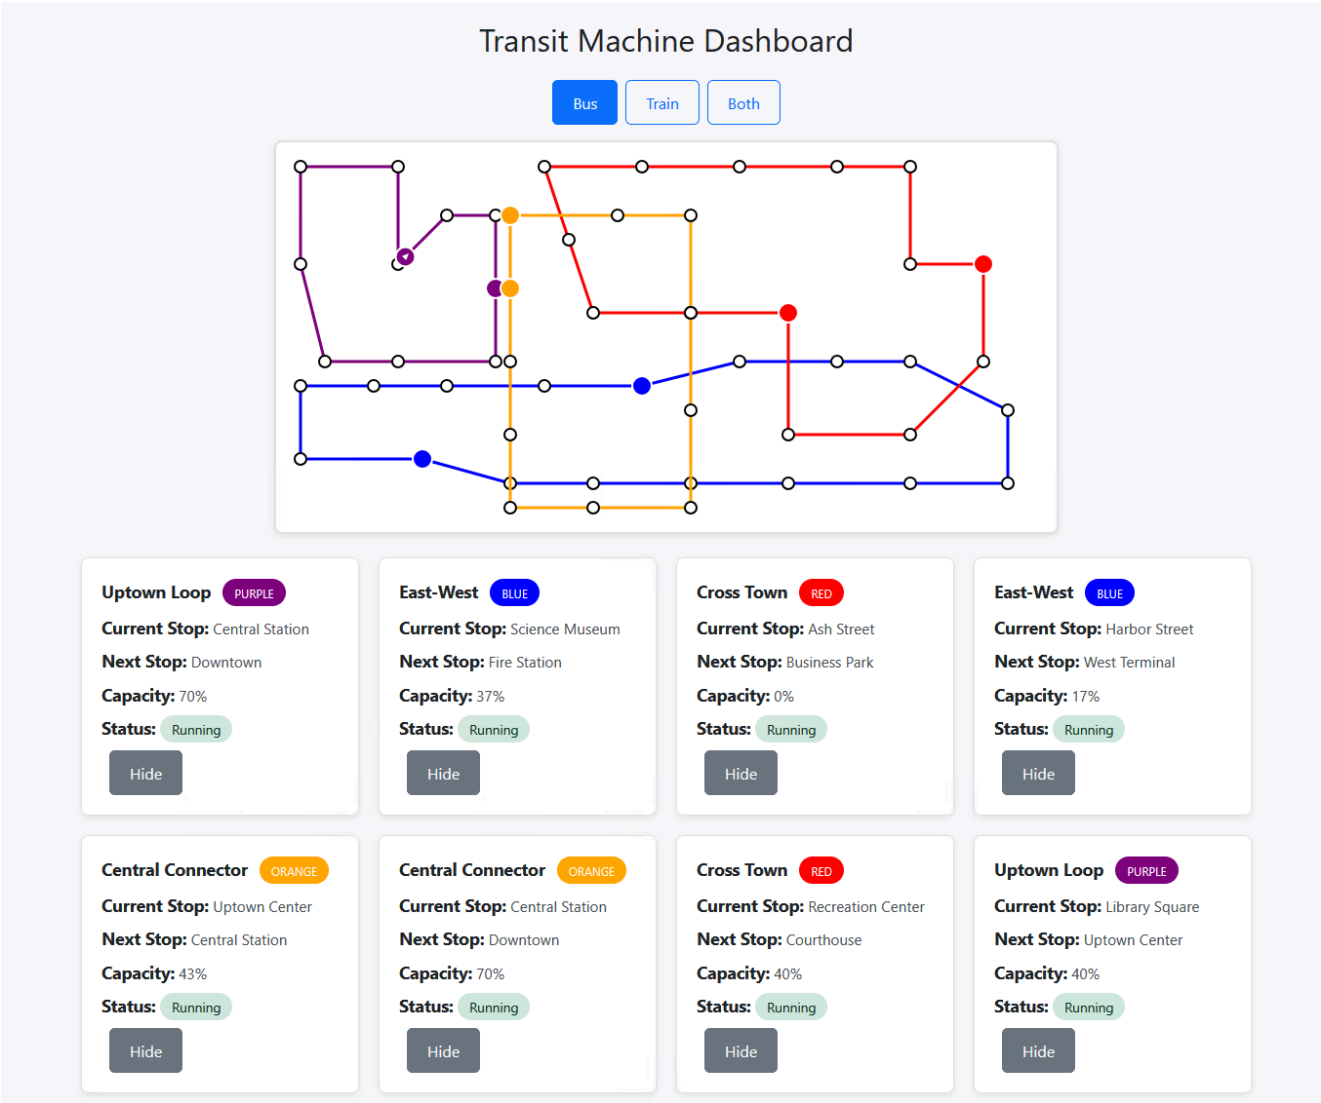
4. You should get an alert that says Purchased Ticket successfully. Select the OK button on this alert. You should now see your ticket similar to the image below.



5. To activate your ticket select the Activate Ticket button.
6. To scan your ticket you can select the green Scan Ticket button.
7. To delete your ticket you can select the red Delete Ticket button.

Viewing the Bus/Train Locations and Routes

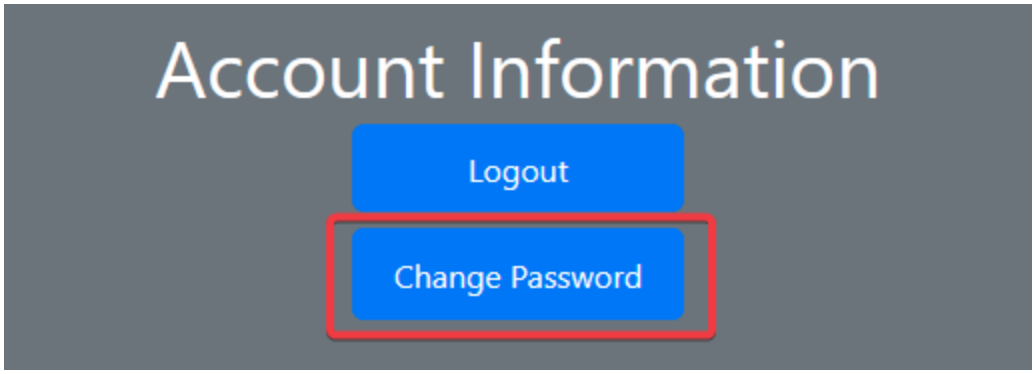
1. On the Public Website,, select the Route Maps text on the left side of the top navigation bar. On the Admin UI select the Dashboard text on the right side of the top navigation bar. You should see something similar to the image below.



2. To switch the view between Bus, Train, or Both, select the respective buttons that are right above the map.
3. To hide any vehicles that you don't want to see on the map, select their respective Hide button below the map.

Changing Password on the Public Website

1. Click on your Username on the right side of the top navigation bar.
2. Select the Change Password button.

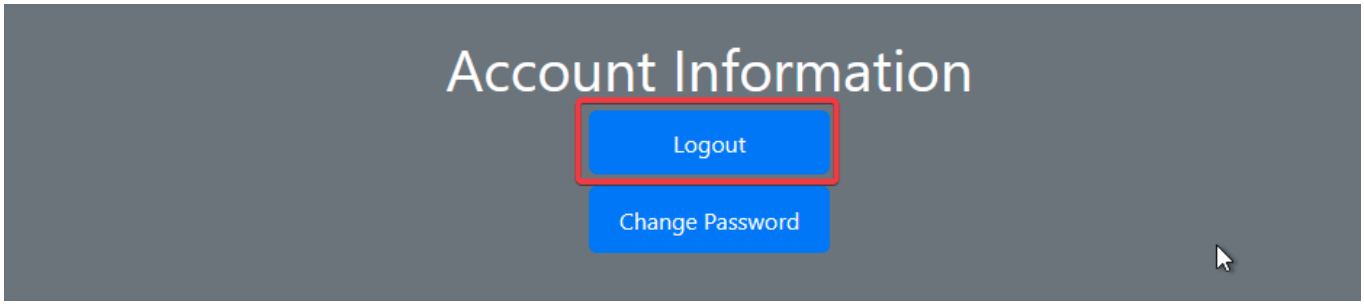


3. Enter your current password in the text box right of the Current Password text. Then type your desired new password in both of the text boxes to the right of the New Password text.

4. Select the Change Password button. You should get an alert that says Password Changed succesfully. Select OK on this alert.

Logout from the Public Website

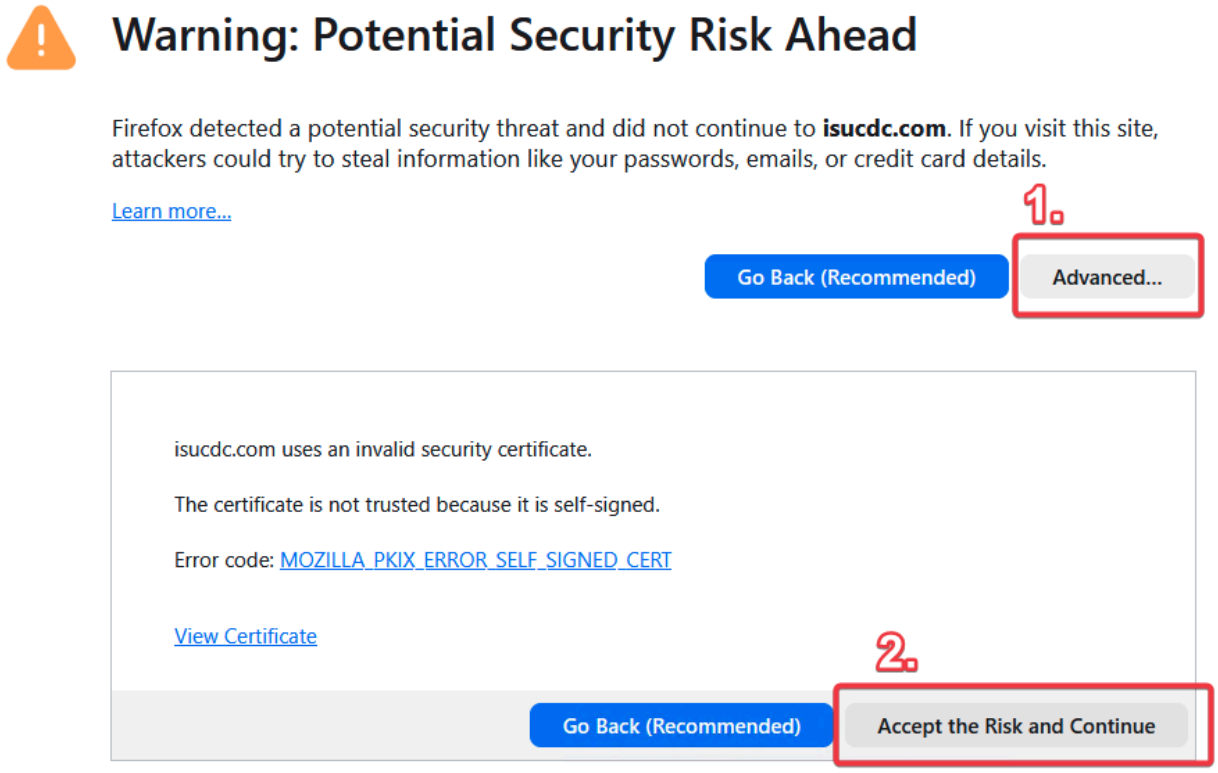
1. Click on your Username on the right side of the top navigation bar.
2. Then select the Logout button.



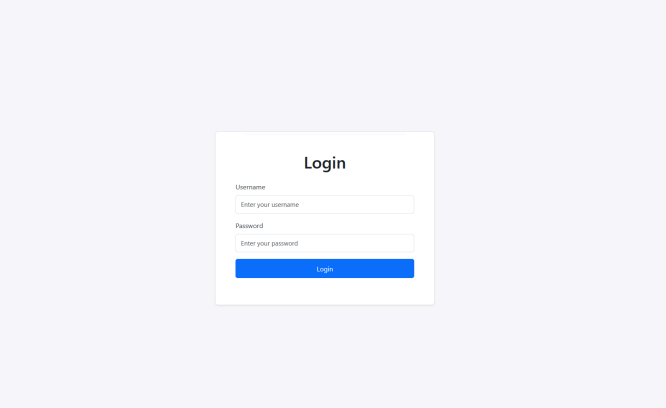
Accessing the Admin User Interface

1. Open a browser of your choice.

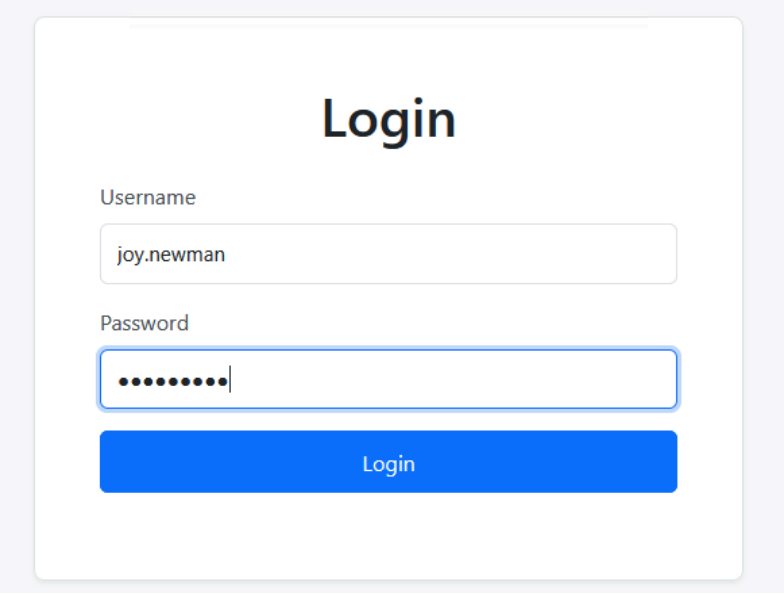
2. In the address bar type “https://admin.team8.isucdc.com”.
3. If you see a Warning: Potential Security Risk Ahead warning, select advanced, then Accept the Risk and Continue.



4. If the website is not loading make sure that you have https NOT http in the url.
5. You will be taken to the main page of the website. A picture of the website is shown below.

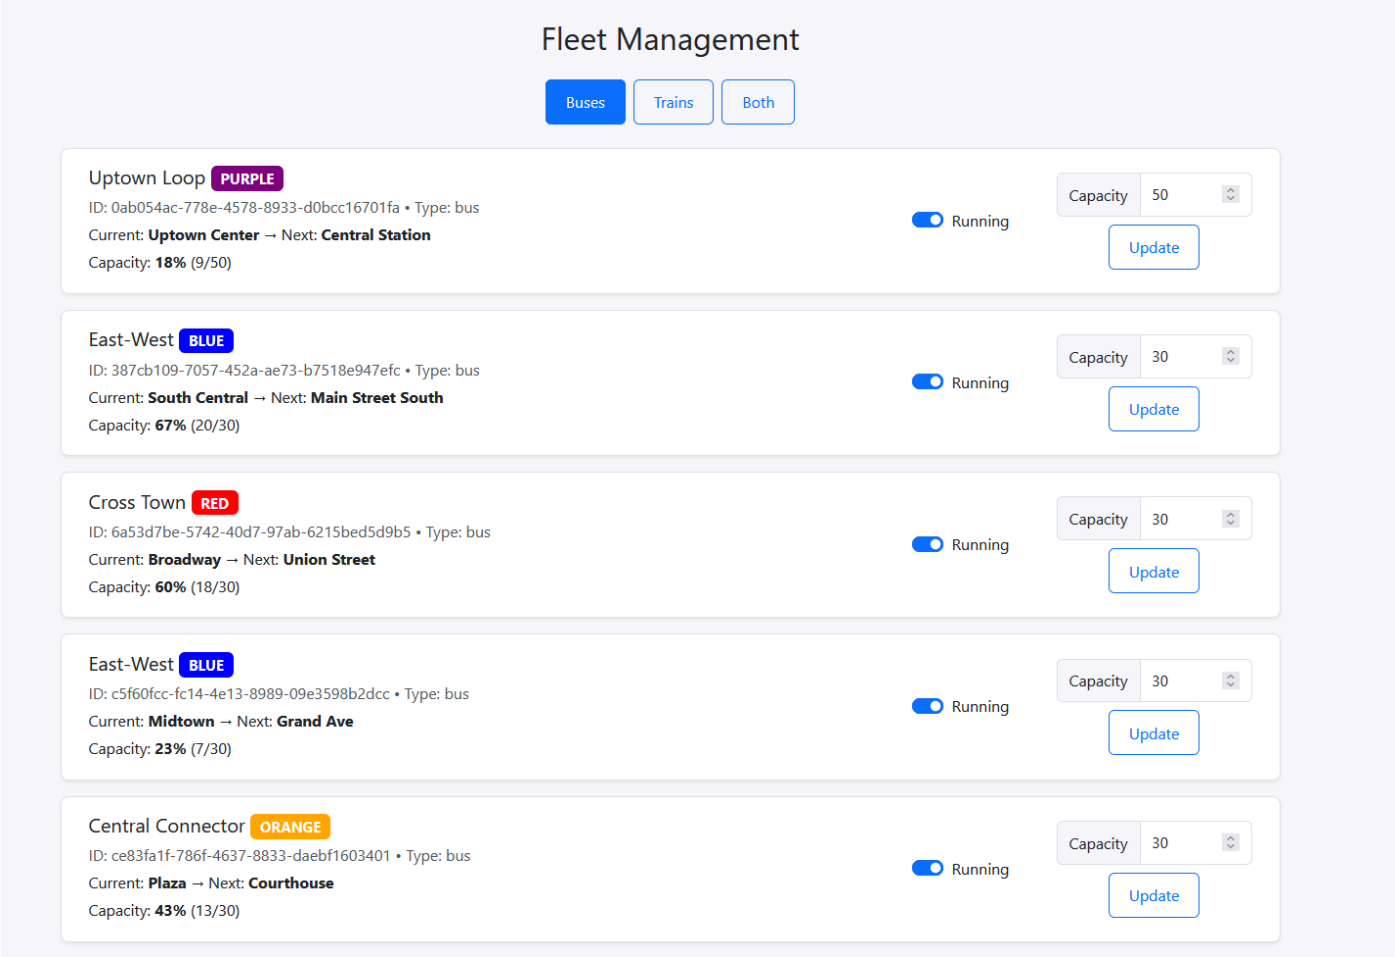


6. Type your username and password in their respective boxes and then select the login button. You must be a transit admin to login to the the Admin UI.



Managing Vehicles

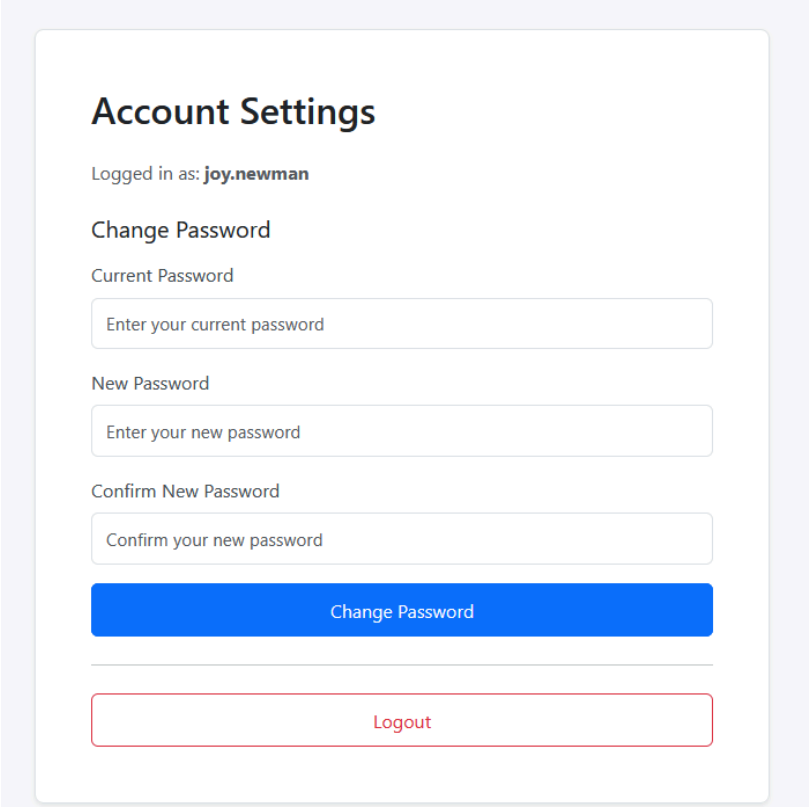
1. Login to the Admin UI, for instructions follow the Accessing the ADMIN User Interface section.
2. Select the Vehicles text on the right side of the top navigation bar. You should be directed to a page that looks similar to the image below.



3. To select between Buses, Trains, or Both select the buttons right below the Fleet Management text.
4. To stop/start a vehicle select the switch to the left of the running/stopped text.
5. To change the capacity of a vehicle, type in your desired capacity in the Capacity box, then select the Update button.
6. Both of these actions should invoke a green alert on the top right letting you know your action has been applied.

Change Password on Admin User Interface

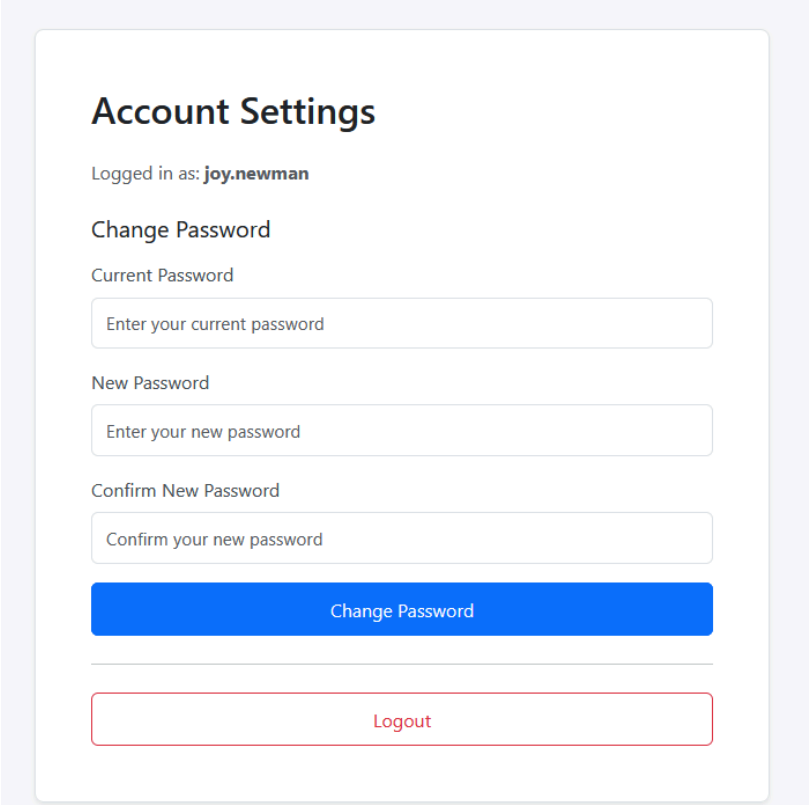
1. Select the Account text on the right side of the top navigation bar. You should see a page similar to the one shown in the image below.



3. Type in your current password and your new password twice, then select the Change Password button.

Logout of the Admin User Interface

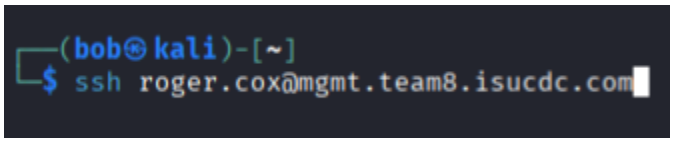
1. Select the Account text on the right side of the top navigation bar. You should see a page similar to the one shown in the image below.



2. Select the red Logout button to logout.

SSH to MGMT and WWW

1. Open the terminal
2. Type “ssh <user>@<host>”, replacing <user> with the user you want to connect with and <host> with the computer you want to connect to. For example if I wanted to connect with user roger.cox to host mgmt.team8.isucdc.com, I would do “ssh roger.cox@mgmt.team8.isucdc.com”.



3. Then hit enter to run the command. Please allow at least 10 seconds for the password prompt to appear. If there is a prompt

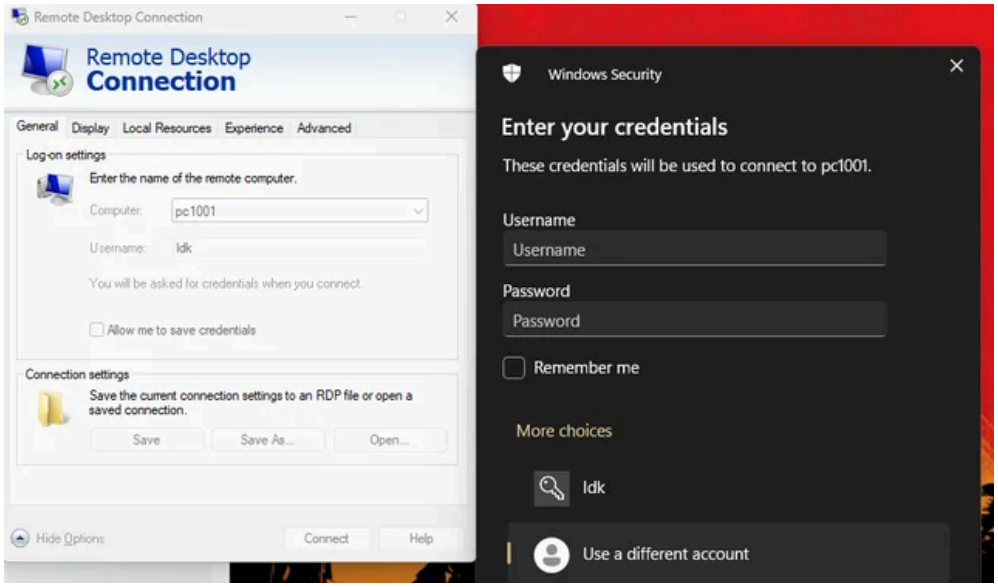
about not being able to verify the authenticity of the host, type "yes" and hit enter.

```
┌──(bob㉿kali)-[~]
└─$ ssh roger.cox@mgmt.team8.isucdc.com
The authenticity of host 'mgmt.team8.isucdc.com (104.190.101.30)' can't be established.
ED25519 key fingerprint is: SHA256:aGbReQ3tbkiRULa32xmTXNo+vvxnL+BX725yPv5Zevk
This key is not known by any other names.
Are you sure you want to continue connecting (yes/no/[fingerprint])? yes
```

4. You should now be prompted for a password. Type in the password for your user. The terminal will not show the characters being typed, so do not worry if it does not seem like you are typing.
5. After you are done typing the password hit enter and you should be logged in via ssh.

RDP to AD, TICKETS, and ADMIN

1. Open the start menu.
2. Type: "remote desktop" and press Enter.
3. The remote desktop connection window will open.



4. In the "Computer" field, type the **hostname** of the system you would like to connect to:

ad.team1.isucdc.com (AD)
tickets.team1.isucdc.com (TICKETS)

5. You will then be prompted for a username and password, which you will enter in their respective fields. (Your username needs to have the prefix TEAM8\) For example, TEAM8\roger.cox
6. Click OK to connect and after a few moments you will be presented with the remote desktop for the selected system.
7. When you are finished with your session, navigate to the start menu and click “Log Off”.
